To: erma-s@fkh.unair.ac.id

Dear Dr. Erma Safitri,

We have received the reports from our reviewers on your manuscript, "**Implementation of fotogrametry techniques as body mass estimation of Indo-pacific bottle nose dolphin (*Tursiops aduncus*) in Bali dolphin lodge**", which you submitted to Ecology, Environment and Conservation with Manuscript ID EEC202004270150.

Based on the received comments, your manuscript could be reconsidered for publication, should you be prepared to incorporate Major Revisions.

The comments and requests of the Editor and the Peer Reviewers are included below. Please share this information with all coauthors of the manuscript.

Editor's Comments:

- Please colour (e.g. red in contrast to black text) all changes in the revised manuscript, without such coloured changes the manuscript may be returned or rejected
- Include a separate point-by-point response file addressing the reviewers comments along with an explanation of any request of the editor or the reviewers that you do not address in your revised manuscript. Your list of responses should be uploaded as a Cover Letter in addition to your revised manuscript.
- Verify the placement and accuracy of each reference in your manuscript as well as the accuracy of all of the values in your tables and figures.
- Please ensure that all author's names and their affiliations are placed correctly.
- Make every effort to address the remaining concerns and to resubmit your manuscript. If you anticipate an additional delay, or if you do not wish to resubmit your manuscript, then please notify us as soon as possible.
- Please keep your coauthors apprised of the status of the article throughout the revision process.
- Review the peer review comments and requests carefully, and edit the manuscript accordingly.

Please feel free to contact the Manuscript Handler coordinators if you have any questions regarding the submission process: publisher@envirotechjournals.com

You can login to your Author's Panel within 10 days to revise the manuscript.

Reviewer(s) Comments to Author:

Reviewer 1

The abstract write it could be concluded that instead of the conclusion
The introduction write this study aimed to instead of our study
Correct they in line 97

It is good article but avoid to write we or our in the scientific article

Review Letter

Manuscript ID EEC202004270150 entitled “Implementation of fotogrametry techniques as body mass estimation of Indo-pacific bottle nose dolphin (*Tursiops aduncus*) in Bali dolphin lodge”. Please notice the following:

The current article provided an excellent novel idea on the use of Implementation of fotogrametry techniques as body mass estimation.

The article was presented in quite professional English with a few points that need clarification.

Title: is concise and informative.

Abstract: informative.

Introduction: provide sufficient background.

The aim: is well-defined.

Materials and methods: clear and informative with two concerns

- This study was analyzed by the method of reading data from photos in the form of pixels with Image-J and then converted to cm based on the calibration results.
- The authors didn't provide the approval number of the manuscript.

Results: are clearly, novel and contribute to knowledge. The authors stated a lot of numbers in this section which is not needed.

Discussion: sufficiently discussed.

Conclusion: clear and sufficient.

References: your references need an update as you have only 35% of the listed references that were published in the past five years and this percentage needs to be improved.

Dear Authors,

Thank you very much for publishing your research in EEC.

As you know your article has been accepted and galley proof is finalized. Due to the current situation, we are running out of page numbers in regular issues of 2020 of the journal. Therefore, we would like to offer you one of the two options to finalize the publication:

1. You wait for a month (until 3rd week of November) and we will publish your article in the regular issue.
2. We publish now in a special issue. There is no difference between regular or special issue except that it is listed as the 13th issue. Rest all is the same.

Can you please confirm in reply to this email which option do you prefer? We will then act accordingly. Looking forward to hearing from you soon and positive.

Article Title: Implementation of fotogrametry techniques as body mass estimation of Indo-pacific bottle nose dolphin (*Tursiops aduncus*) in Bali dolphin lodge

Corresponding Author: Erma Safitri

Author Queries:

1. During the process of final proofreading and typesetting of your manuscript, the following queries have arisen. The queries are related to RED text in the galley proof. Please check your typeset proof carefully against the queries listed below and make the necessary changes either on this query form or directly on the PDF galley proof. Watch short demo (<http://www.youtube.com/watch?v=VsvY660PIok>) or follow the page given beneath for making changes directly in the pdf.

2. No further changes will be allowed once article will be fully published.

QUERY REF	PAGE No	DETAILS REQUIRED	AUTHOR'S RESPONSE
AQ1	1	The references in red is not given in the reference section of the article. Please provide it.	Yes, I have provided it
AQ2		Please go through the reference list and delete the references that are not cited in the text.	Yes, I have deleted the references that are not cited in the text
AQ3	All Pages	Please check for the biological / scientific names and confirm that they all are given in correct order and italic font style	Yes, I have revised

Any query or additional file related to the article may be sent to email contact@envirobiotechjournals.com

Making Corrections in Galley Proof (PDF) File

Please follow these instructions to mark changes or to add notes in the galley proof. You can use Adobe Acrobat professional version 7.0 (or onwards) or Adobe Reader 8 (or onwards)). The latest version of Adobe Reader is available to download for free at get.adobe.com/reader.

For additional help please use the [Help](#) function or, if you have Adobe Acrobat Professional 7.0 (or onwards), go to http://www.adobe.com/education/pdf/acrobat_curriculum7/acrobat7_lesson04.pdf
