Dear Dr. Prahasanti,

Please find the attached manuscript as the last edited file of the article encoded 60625. There are some contradictions in the numbers between text and tables that needs to be modified by the authors and also there is repetition between tables and text. please correct the highlighted parts only and return the revised version of the article as soon as possible. It is notable to mention that this is the final edited version of the article so please do not make any changes in any other part of the manuscript unless the highlighted parts. We are looking forward to receive your answer.
