Dear Dr. Surboyo,

Dental Hypotheses has received your manuscript entitled "SHED, PRF and chitosan as three-dimensional of tissue engineering for dental pulp regeneration" for consideration for publication. The reference number for this manuscript is "denthyp_121_20". Kindly quote this in correspondence related to this manuscript.

The manuscript is being reviewed for possible publication with the understanding that it is being submitted to one journal at a time and have not been published, simultaneously submitted, or already accepted for publication elsewhere either as a whole or in part. Online submission of this article implies that the corresponding author has the written consent from all the contributors to act as corresponding author.

You are requested to send the signed copyright/contributor form within two weeks. The form can be uploaded as an scanned image from your area. The decision about the manuscript will be conveyed only on receipt of the form. High resolution images are required at the time of acceptance, you should be notified separately for the same, if images uplaoded by you are not of printable quality.

The Editors will review the submitted manuscript initially. If found suitable, it will follow a double-blinded peer review. We aim to finish this review process within a short time frame, at the end of which a decision on the suitability or otherwise of the manuscript will be conveyed to you via this system. During this process you are free to check the progress of the manuscript through various phases from our online manuscript processing site <https://www.journalonweb.com/denthyp>.

The journal allows free access (Open Access) to its contents and permits authors to self-archive final accepted version of the articles on any OAI-compliant institutional / subject-based repository. The journal does not charge for submission, processing or publication of manuscripts and except for color reproduction of photographs.

We thank you for submitting your valuable work to the Dental Hypotheses.

Yours sincerely,
Editor
Dental Hypotheses

Dear Dr. Surboyo,

NOTE: This e-mail is sent to you as one of the contributing authors. If you are not corresponding author, please co-ordinate with the author designated by your group as the corresponding author for this manuscript

Status of the manuscript titled 'SHED, PRF and chitosan as three-dimensional of tissue engineering for dental pulp regeneration' submitted by Dr. Meircurius Surboyo has been changed and a copy of the mail is as;

Dear Dr. Surboyo

With reference to your manuscript entitled 'SHED, PRF and chitosan as three-dimensional of tissue engineering for dental pulp regeneration', please review the comments of the referees from our site <https://www.journalonweb.com/denthyp>. The manuscript would be reconsidered after requisite modifications as per the comments and instructions provided by the journal.

If you wish to continue with the publication process, kindly make the changes according to the comments and upload the revised manuscript from the site along with the point to point clarifications to the comments indicating clearly where in the manuscript the changes have been carried out. Do check the FAQ related to replying to the comments and uploading a file. The contributors' form/images should be sent separately to the Administrative Office of the journal.

The journal allows four weeks for the revision of the manuscript. If we do not hear from you within this period, we will consider it your non-desire to continue the article with us. Please also note that submission of revised article does not guarantee its final acceptance by the journal.

We thank you for submitting your valuable research work to Dental Hypotheses.

With warm personal regards,

Editorial Team

Dental Hypotheses

Remarks:

[Editor]

Reviewers have recommended revisions to your manuscript. Therefore, I invite you to respond to their comments and revise your manuscript. Essentially, they feel that the manuscript should be consider for possible publication as persepective. So please revise your paper based on their comment and resubmit the manuscript as persepective.

Perspective should be between 1000-1500 words, with as many as 7 - 10 citations and may include one figure and/or one table.

[Reviewer]

Thanks for giving me the opportunity to assess this manuscript; I recommend author/s revise their manuscript. The Comments, which can be found at the bottom of this page, will help you.

This articles will discuss important, emerging issues in clinica l dental practice (regeneration).

-as the importance of the topic, I recommends, before a further re-evaluation of the manuscript, to update the literature through read, discuss and must cites in the references with great attention all of those recent interesting articles, that helps the authors to better introduce and discuss the aim of the study in light of regeneration:

Khazaei, S, Khademi A, Torabinejad M, Nasr Esfahani MH, Khazaei M, and Razavi SM. 2020. "Improving Pulp Revascularization Outcomes with Buccal Fat Autotransplantation." *Journal of Tissue Engineering and Regenerative Medicine*, July. <https://doi.org/10.1002/term.3094>.

Khazaei, M., A. Bozorgi, and S. Khazaei. 2016. "Stem Cells in Dentistry, Sources, and Applications." *Dental*. <http://dentalhypotheses.com/article.asp?issn=2155-8213;year=2016;volume=7;issue=2;spage=42;epage=52;auiast=Khazaei>.
