Surabaya, 16th April 2016

Anny Setijo Rahaju, Aniek Meidi, Gondo Mastutik, Sjahjenny Mustokoweni, Arifa Mustika:

We have reached a decision regarding your submission to Indonesian Journal of Urology, "Correlation Between Blood Serum Psa Level And Mmp-2 In Prostate Adenocarcinoma".

Our decision is to: Request Revision

Reviewer A:

Recommendation:

Reviewer Comment

1. The authors should rewrite the article in a more comprehensible language.
 2. The results of their study is not presented clearly.
 3. The authors should dwell on more data such as Gleason score, and progression after treatment because the strength of MMP-2, according to literature, is in prediction of disease progression.
