Dear Mr. / Mrs. Journal Colleagues,

Journal of Aquaculture And Fish Health (JAFH) issue has been published. Please visit our journal.

The Journal of Aquaculture And Fish Health (JAFH) has an objective to publish and provide high-quality scientific contributions to the field of fisheries. These contributions came from innovative researches that encourage science and technology development in the field of fisheries and marine science on a national and international scale. This journal serves as a communication medium for researchers, academics, students, and communities. We publish our articles three times a year in February, June, and September, accepting review papers, full research articles, and short communications.
