Manuscript Number: SDENTJ-D-20-00355R2

Mouse Periodontitis Models Using Whole Porphyromonas gingivalis Bacteria Induction

Dear Dr Hariyani,

Thank you for submitting your manuscript to The Saudi Dental Journal.

I have completed my evaluation of your manuscript. The reviewers recommend reconsideration of your manuscript following minor revision and modification. I invite you to resubmit your manuscript after addressing the comments below. Please resubmit your revised manuscript by Aug 04, 2021.

When revising your manuscript, please consider all issues mentioned in the reviewers' comments carefully: please outline every change made in response to their comments and provide suitable rebuttals for any comments not addressed. Please note that your revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author at <https://www.editorialmanager.com/sdentj/>, and navigate to the "Submissions Needing Revision" folder under the Author Main Menu.

The Saudi Dental Journal values your contribution and I look forward to receiving your revised manuscript.^[08]

Kind regards,

Dr. Hamdan S. Alghamdi
Editor-In-Chief
Saudi Dental Journal

Editor and Reviewer comments:

We are in the final stages of review process, amend the following recommendations for us to proceed with acceptance and publication

1. Remove the highlights and line numbering from the final manuscript.
2. Please check and mention the word count(Maximum permissible is 2000- 2500 for original research, Review article- 3000-3500 Abstract- 300) in the title page.
3. Total number of Illustrations (Figures+ Tables) must not exceed 6
4. Please check the author details
5. Add the details of place of research. (If Applicable)
6. Kindly update your Abstract in the submission portal if revised.
7. Add Table 4 as supplementary material and renumber the Tables.

Reviewer #1: In this revised version, many typos and grammatical errors were corrected well. Now this version can be well understood by the readers. This reviewer hopes that this review paper would be beneficial for other researchers.

Dear Dr Hariyani,

Thank you for submitting your manuscript to The Saudi Dental Journal.

I am pleased to inform you that your manuscript has been accepted for publication.

My comments, and any reviewer comments, are below.

Your accepted manuscript will now be transferred to our production department. We will create a proof which you will be asked to check, and you will also be asked to complete a number of online forms required for publication. If we need additional information from you during the production process, we will contact you directly.

We appreciate you submitting your manuscript to The Saudi Dental Journal and hope you will consider us again for future submissions.

Kind regards,
Dr. Hamdan S. Alghamdi

Editor and Reviewer(s)' Comments to Author:

Response:- The authors have now addressed each of the concern. Detail of the responds could be seen in the table below:

Editor / reviewer's number	Reviewer's comments	Authors response	Changes made (Page and Line Number)
Editor	Please indicate the changes made as a point by point rebuttal RESPONSE TABLE (4*4)	Provided here	Provided here
Editor	manuscript according to AUTHORS GUIDELINES	Has been done throughout the manuscript	throughout the manuscript
Editor	Check and format Bibliography - Referencing style according to AUTHORS GUIDELINES (Author, Year) within text	Has been done and checked	throughout the manuscript
Editor	Please check and mention the word count (Maximum permissible for Reviews is 3000-3500, Abstract- 300, including key words)	Abstract : 222 Words Text : 3,071 Words	This final manuscript contains: Abstract : 222 Words Text : 3,071 Words
Editor	Total number of Illustrations (Figures+ Tables) must not exceed 6	Total Figures+ Tables = 5	This final manuscript contains: Total Figures+ Tables = 5
Editor	Please submit an "English editing certificate"	English editing certificate has been attached	English editing certificate has been attached
1	This scoping review for the mice periodontitis model with periodontal pathogen <i>Porphyromonas gingivalis</i> is relatively well written. Search method, evaluation method, and introducing method are understandable for the readers. This review would be a good help for the researchers who are starting in vivo study of <i>P. gingivalis</i> -induced periodontitis.	Thank you for your constructive feedback on our manuscript.	Thank you for your constructive feedback on our manuscript.
1	Pay attention for spelling of <i>Porphyromonas gingivalis</i> and <i>P. gingivalis</i> .	Thank you for the suggestion. The change has been made throughout the manuscript	<i>Porphyromonas gingivalis</i> to <i>P. gingivalis</i> throughout the manuscript
1	Pay attention for inserted spaces between words.	Thank you for the suggestion. The change has been made throughout the manuscript, and the check has been conducted	throughout the manuscript
1	Misspelling should be corrected such as "amout" to "amount"	Thank you for the suggestion. The change has been made	Header of table 3 (Page 16)
1	In Table 3, Result raw could be modified. Findings regarding to morphological, microbiological, immunological, and so on, could be classified to be clear.	We add a new table providing overview of findings and result	Table 4 page 22
2	The manuscript is poorly written in English.	Thank you for your feedback. The article right now has been checked	English editing certificate has been attached

		in the editing service	
2	The result section is very poor. The result section contains many irrelevant information but misses the useful one. The result section should contain the summary of all the findings in the Table.	Thank you for your feedback. Some important information has been added as your suggestions.	Results section has been modified to summarize all the findings. Page 5 Line 126-150 and page 6 line 151-155 includes information about inoculation day as your suggestion
2	The data of the table should be concise to include major findings and relevant information only.	Table 3 has been modified and new table has been added to provide overviews of findings and result	Table 3 has been modified (page 16-21) Table 4 was added to make it easier for readers to understand the results of the research (page 22)
