Pancoast Tumor Mimicking Lung Tuberculosis, a Case Report

Dear Dr Sensusiati,

The PDF for your above referenced manuscript has been built and requires your approval. If you have already approved the PDF of your submission, this e-mail can be ignored.

Please review the PDF carefully, before approving it, to confirm it appears as you expect and is free of any errors. Once approved, no further changes can be made.

To approve the PDF, please:

\* Log into Editorial Manager as an author at: <https://www.editorialmanager.com/rcr/>.

\* Click on the folder 'Submissions Waiting for Author's Approval' to view and approve your submission PDF. You may need to click on 'Action Links' to expand your Action Links menu.

\* Confirm you have read and agree with Elsevier's Ethics in Publishing statement by ticking the relevant box.

Once the above steps are complete, you will receive an e-mail confirming receipt of your submission.

We look forward to receiving your approval.

Kind regards,  
Radiology Case Reports

Pancoast Tumor Mimicking Lung Tuberculosis, a Case Report

Dear Dr Sensusiati,

Our records indicate that you started the submission process for the above referenced manuscript several days ago. As the submission process is incomplete, this manuscript has not yet been submitted to Radiology Case Reports.

If you intend to proceed with the submission, please complete the submission within the next 60 days. To complete your submission, please log in as an author at <https://www.editorialmanager.com/RCR/>, and navigate to the "Incomplete Submissions" or "Submissions Waiting for Author's Approval" folder.

If you do not take any action, this incomplete submission will be removed from the journal site in 60 days.

You may disregard this message if you no longer wish to proceed with this submission, or if this is a duplicate submission. In that case, the incomplete submission will be automatically removed from the journal site in 60 days.

Thank you for your cooperation.

Kind regards,

Radiology Case Reports

Manuscript Number: RCR-D-22-01366

Pancoast Tumor Mimicking Lung Tuberculosis, a Case Report

Dear Dr Sensusiati,

Thank you for submitting your manuscript to Radiology Case Reports.

I have completed my evaluation of your manuscript. The reviewers recommend reconsideration of your manuscript following major revision. I invite you to resubmit your manuscript after addressing the comments below. Please resubmit your revised manuscript by Feb 27, 2023.

When revising your manuscript, please consider all issues mentioned in the reviewers' comments carefully: please outline every change made in response to their comments and provide suitable rebuttals for any comments not addressed. Please note that your revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author at <https://www.editorialmanager.com/rcr/>, and navigate to the "Submissions Needing Revision" folder.

Radiology Case Reports values your contribution and I look forward to receiving your revised manuscript.

Kind regards,  
Felix Chew  
Editor-in-Chief

Radiology Case Reports

Editor and Reviewer comments:

In its current state, the level of English throughout your manuscript does not meet the journal's required standard. You may wish to ask a native speaker to check your manuscript for grammar, style and syntax, or use the professional language editing options available from Elsevier Author Services: <https://webshop.elsevier.com/>

Reviewer's Responses to Questions

The subject addressed in this article is worthy of investigation?

Reviewer #1: Yes

\_\_\_\_\_

The manuscript is appropriate for the journal?

Reviewer #1: Yes

\_\_\_\_\_

Organization of the manuscript is appropriate?

Reviewer #1: Yes

\_\_\_\_\_

Figures, tables and supplementary data are appropriate?

Reviewer #1: Yes

-----

Reviewer 1: Please add any suggestions to the authors for revision here:

1. Interesting case.
2. There are many problems with English grammar, syntax, and word usage. There are also spelling, capitalization, and typographic errors. Please edit carefully for these and obtain the help of an English language medical editor if necessary.
3. Rather than use specific dates, establish a timeline beginning with the initial chest radiograph and use elapsed time.
4. The initial TB GeneXpert MTB/RIF test was negative, but the diagnosis of TB was established anyway. Please discuss the accuracy of this test. Are false negatives common in your patient population? What can be done to mitigate this?

Pancoast Tumor Mimicking Lung Tuberculosis, a Case Report

Dear Dr Sensusiati,

Thank you for submitting your manuscript to Radiology Case Reports.

I am pleased to inform you that your manuscript has been accepted for publication.

My comments, and any reviewer comments, are below.

Your accepted manuscript will now be transferred to our production department. We will create a proof which you will be asked to check, and you will also be asked to complete a number of online forms required for publication. If we need additional information from you during the production process, we will contact you directly.

We appreciate and value your contribution to Radiology Case Reports. We regularly invite authors of recently published manuscript to participate in the peer review process. If you were not already part of the journal's reviewer pool, you have now been added to it. We look forward to your continued participation in our journal, and we hope you will consider us again for future submissions.

Kind regards,  
Felix Chew
