Bersama ini kami melampirkan komentar dari reviewer. Naskah dokter diterima dengan perbaikan sesuai konentar reviewer.
Untuk memudahkan komunikasi, mohon mengirimkan nomor wa ke c/p Sunny Wangko 08124455733.
Terima kasih atas kerjasamanya

Reviewer A:

For author and editor

Subject: The Accuracy of Tooth Development as an Indicator of Dental Age Estimation for Children in Surabaya, Indonesia

Mohon pertimbangkan apakah frase "Age estimation through dental examination" lebih tepat pada awal kalimat abstrak

Pada metode penelitian belum dijelaskan cara pengambilan sampel dan penentuan besar sampel

Reviewer B:

1. Abstrak baris 1 dan 2 : saran perbaikan kalimat: Dental age estimation methods have been developed in such a way as to fulfill various requirements of medico-legal, law enforcement, and identification of victims of mass disasters. The purpose of this study (is jadi was)

2. Hal 3 baris ke3 : All seven mandibular teeth : artinya ke 7 gigi mandibula. Mohon diperbaiki sesuai dengan maksudnya.

3. Hal 4 baris pertama : saran : kalimatnya diganti menjadi : to determine the normality of the data distribution.

4. Hal 4 : Discussion : baris ke 3 : kata2 we evaluate, saran : kalimatnya diganti menjadi : In this study, the accuracy of tooth..... method was evaluated.

Demikian saran perbaikan dan terima kasih atas perhatiannya.

Salam

5. Hal 4 : paragraf terakhir : Previous research : sebaiknya dituliskan nama/oleh siapa (Ismail ?)
