Dear Dr. Rahmadi,

Your manuscript entitled "The effect of various high-fat diet on liver histology in the development of NAFLD models in mice" has been successfully submitted online and is presently being given full consideration for publication in Journal of Basic and Clinical Physiology and Pharmacology (JBCPP).

Your manuscript ID is JBCPP.2020.0426.

Please mention the above manuscript ID in all future correspondence or when calling the office for questions. If there are any changes in your affiliation, street address or e-mail address, please log in to ScholarOne Manuscripts at <https://mc.manuscriptcentral.com/jbcpp> and edit your user information as appropriate.

You can also view the status of your manuscript at any time by checking your Author Center after logging in to <https://mc.manuscriptcentral.com/jbcpp>.

Thank you for submitting your manuscript to JBCPP.

Kind regards

Ms. Katharina Appelt

Dear Dr. Rahmadi:

Thank you again for submitting your manuscript ID JBCPP.2020.0426 entitled "The effect of various high-fat diet on liver histology in the development of NAFLD models in mice" to Journal of Basic and Clinical Physiology and Pharmacology (JBCPP). Your manuscript has been reviewed and requires modifications prior to acceptance. The comments of the reviewer(s) are included at the bottom of this letter.

I invite you to respond to the reviewer(s)' comments and revise your manuscript.

To revise your manuscript, log into <https://mc.manuscriptcentral.com/jbcpp> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts Awaiting Revision". Under "Actions", click on "Create a Revision". Your manuscript number has been appended to denote a revision.

You may also click the below link to start the revision process (or continue the process if you have already started your revision) for your manuscript. If you use the below link you will not be required to login to ScholarOne Manuscripts.

PLEASE MAKE SURE TO CONFIRM YOUR CHOICE ON THE WEB PAGE AFTER CLICKING ON THE LINK

https://mc.manuscriptcentral.com/jbcpp?URL_MASK=670f83c06e5c4d33bfa93e8727b7b6c7

The revised paper needs to be submitted within 3 weeks from now.

When submitting your revised manuscript, you should also respond to the comments made by the reviewer(s). Please add

1. a point-by-point reply to the reviewers' comments
2. and/or a rebuttal against each point that is being raised

You will be able to respond to the comments made by the reviewer(s) under File Upload - File Designation - Author's Response to Reviewer/Editor Critique. Reply to the reviewer(s)' comments is mandatory; all revised manuscripts without reply will be sent back to the author.

You will be unable to make your revision on the originally submitted version of the manuscript. Instead, revise your manuscript and save it on your computer. Please send in a clear corrected version of your manuscript according to the reviewers as well as a format in which you highlight the changes to your manuscript within the document by using underlined or colored text.

Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

Your original files are available to you when you upload your revised manuscript. You may delete these files or keep them. Please pay attention to the order of your uploaded files; the first one is the reply to the reviewer(s)' comments, followed by the revised manuscript, and, if applicable, Tables and Figures, and Supplementary Material. If you decide to keep the original files, these must be the last ones in the order of your uploaded files.

Once again, thank you for submitting your manuscript to JBCPP. I look forward to receiving your revision.

Kind regards

Dr. Suciati Suciati

Comments to the Author

The food intake of each group was different and increased from week 1 to 4. It should be assessed and elaborated in the manuscript whether it influenced the result or not and how (if there was).

Reviewer: 2

Comments to the Author

The research describes the steatotic characteristics of a certain kind of high-fat diet. The model showed a novel and unique feature in body weight and food intake as compared to the established theoretical results of liver histology.

Several minor notes for improvement are as follow:

1. It is obvious that the diet models are lab-made, not by manufacturing made. It should be stated in the method. Further, the brief composition should be explained.
2. Please prevent the use of "can" and "will" in the theoretical statement.
3. The statement showing the ethical clearance should be added in the animal model section
4. In the method, the author should add a section for statistical methodology.
