Dear Dr. Michael Josef Kridanto Kamadjaja,  
No problem, take the necessary time, I will rebook the deadline for 21th September, I hope if this is long enough for your needs, if not just let me.  
Best regards,

I am very pleased to receive your email regarding the status of my manuscript. Me and the other authors are still working on it. Could you please give me extended time to re-submit the revision?  
Thank you for your understanding

Dear Dr. Michael Josef Kridanto Kamadjaja

Hope you are doing well.

First, allow me to apologize for the delay in providing an editorial decision. We received many more manuscripts than expected during September.

The manuscript "The Effect of Scaffold Hydroxyapatite derived from Portunus pelagicus Shell on the Expression of Fibroblast Growth Factor-2 (FGF-2) and Bone Morphogenetic Proteins-2 (BMP -2) in the Extraction Sockets of Cavia cobaya" has been editorially approved to enter peer review.

We are a small and slow journal, so please expect at least 3 months for this process to take place. I appreciate your patience during this time, but I remain attentive to inquiries via email if you need any updates or additional information.

I am very sorry for the delay.

Best regards,

Celia A. Lima, PhD

Dear Dr. Michael Josef Kridanto Kamadjaja

Hope you are doing well. I am very sorry for the long delay in getting back to you with an answer. We were overwhelmed with manuscripts during September, and are still processing them. I am sorry that you had to wait so long. I will have an editorial decision within a couple of days!

Best wishes,

Dear Dr. Michael Josef Kridanto Kamadjaja  
Hope you are doing well. I absolutely can understand your frustration regarding this manuscript. It has been a long time under revision. So far there is one review ready, positive in tone. As soon as I have a second review we will be able to have a final resolution.
