Dear GCBSS Committee,

Please find attached to this email four files as requested by the manual for authors, containing the revisions and the different letters and information required.

In my main manuscript, I highlight significant changes in red as indicated, but there are also small changes all across the document related to syntax, better articulation of words, etc. that arise as this article went through a new proofread and editing process as it was suggested by one of the reviewers.

I appreciate very much the help. Please don't hesitate for further requests.

Miguel A Esquivias (correspondent author)

Dear Mr. Miguel A Esquivias

Please, improve your revised paper according to the comments below:

1. In in-text citations, please follow APA latest style. (ie. do not use "&" use "and" in sentences except inside bracket);
2. In tables, when writing numbers, follow English writing rules and use decimal points (dots instead of commas).
3. In references, please put city and country after book publishers name only.

We appreciate if you can submit at your earliest.

Kind regards,  
GCBSS Committee
