Dear Dr. Goh, Dr. Chaw, Dr. Ming and Dr. Hermansyah,

Hope this email finds you well.

Please kindly address the following issues:

1. We found that there are four corresponding authors on the system but three corresponding authors in the manuscript. According to our journal's regulations, there are three corresponding authors at most in one article. Please confirm the corresponding authors.
2. We detected that the author's email is different in the manuscript (khangwen.goh@newinti.edu.my; long.ming@ubd.edu.bn) and on the system (gohkhangwen@gmail.com; longchiauming@gmail.com), please confirm the right one.
3. We found this study involves human surveys. If possible, please provide the ethical code/ethical approval file and the blank version of the form used to obtain participate permission (without the participate names or signature) to us.

In the meantime, we encourage our authors to provide a graphical abstract (GA), which is an image that appears alongside the text abstract in the Table of Contents. In addition to summarizing the content, it should represent the topic of the article in an attention-grabbing way. It will make your publication more interesting and attractive. Instructions can be found at <https://www.mdpi.com/journal/ijerph/instructions#preparation>.

Please feel free to contact us, if you have any questions.

We are looking forward to hearing from you.

With regards,

Liz

Thank you very much for your message.

We understand that you have limited time for revisions. It is fine for us to grant you an extension.
