Kepada: izzet yavuz <izzetyavuz@hotmail.com>

Dear Honorable Editor in Chief JIDMR
Prof. Dr Izzet Yavuz
I hope this email finds you well,

I'm on behalf of the author, I would like to submit our original research manuscript to JIDMR entitled
Acute Effects of Interval and Continuous Physical Activity with Moderate Intensity on Biomarker Bone Formation Procollagen Amino Terminal Propeptide and Bone Carboxy-Terminal Crosslink Teleoptide
by Sari et al., for the new manuscript, please kindly check the attachment below.

However, we confirm and agree to pay the APC as much as 1000USD for the fast track, if our paper gets accepted. Please send all the correspondence to

Gadis Meinar Sari

Department of Physiological Sciences and Medical Biochemistry, Universitas Airlangga, Surabaya, Indonesia. Jl. Mayjen Prof. Dr. Moestopo 47, Surabaya, Indonesia (Zip Code: 60131). Email: gadis-m-s@fk.unair.ac.id

Thank you for your help and consideration,
Sincerely Yours,

 **JIDMR Manuscript Dr. Gadis .docx**

D22_2057_Gadis_Meinar_Sari_Indonesia / Submission confirmation

Journal of International Dental and Medical Research <jidmreditor@outlook.com> 10 November 2022 pukul 03.02
Kepada: Alexander Patera Nugraha <alexander.patera.nugraha@fkg.unair.ac.id>, "m-s@fk.unair.ac.id" <m-s@fk.unair.ac.id>

Dear Prof. Dr. Gadis Meinar Sari,

Your manuscript entitled " Acute Effects of Interval and Continuous Physical Activity with Moderate Intensity on Biomarker Bone Formation Procollagen Amino Terminal Propeptide and Bone Carboxy-Terminal Crosslink Teleoptide " has been successfully submitted to the JIDMR by e-mail and will be considered for publication in "Journal of International Dental and Medical Research".

We are sending your article for a peer-review and when we receive an evaluation we will inform you.

Thank for considering the manuscript for submission to the **Journal of International Dental and Medical Research**.

Please feel free to contact me with any questions or concerns.

Best Regards,

Editorial Secretary for JIDMR

Dear **Prof. Dr. Gadis Meinar Sari,**

It's a great pleasure for me to inform you that your manuscript which titled " **Acute Effects of Interval and Continuous Physical Activity with Moderate Intensity on Biomarker Bone Formation Procollagen Amino Terminal Propeptide and Bone Carboxy-Terminal Crosslink Teleoptide** " has been accepted and will be finalized for **issue 2023; volume 16 number 1** which will be released either late March 2023 or early April 2023.

Send us Transfer of Copyright Agreement please, it is necessarily before sending manuscript to press <http://www.jidmr.com/journal/>, http://www.ektodermaldisplazi.com/journal/documents/Transfer_of_Copyright_Agreement.doc.

Before sending manuscript to press, I will send to you the press ready copy for your final checking.

Sincerely yours.

Open access and publication process charges for per accepted article is **1000 US\$**.

You should complete your article charges process for your accepted article ASAP, in case of late charges transfer then your accepted article can be publish other any following issue.

Please inform us of the "sender's name and transaction date" after paying the publication fee.

Sincerely yours.

1- By bank transfer to the my account (as 1000 US\$).

Please carefully fill in transaction form and indicate at the "Remittance Information" section over the transaction or swift bill (pay slip) section to the; Full Account Beneficiary Name, Account IBAN number and **your article ID number** .

Please inform JIDMR money order date when you did.

Reviewers Guide for

Journal of International Dental and Medical Research

PART: For Reviewer Only

SECTION I

Reviewer's name	XXX
Date	18/11/2022
Manuscript title	Continuous Physical Activity with Moderate Intensity on Biomarker Bone Formation Procollagen Amino Terminal Propeptide and Bone Carboxy-Terminal Crosslink Teleoptide
Manuscript ID number	D22_2085

SECTION II: Comments per Section of Manuscript (1 = acceptable) (2 = there is need to revision)

General comment	1
Introduction	2
Methodology	1
Results	1
Discussion	2
Bibliography/References	2

SECTION III - Please rate the following: (1 = Excellent) (2 = Good) (3 = Fair) (4 = poor)

Originality	2
Contribution to the field	2
Technical quality	2
Clarity of presentation	1
Depth of research	2

SECTION IV - Recommendation: (Kindly Mark With An X)

Accept as is:	
Requires minor corrections:	x
Requires moderate revision:	
Requires major revision:	
Accept if journal need to paper:	
Reject on grounds of (please be specific):	
I would like to see after revisions	

SECTION V: Additional Comments

Please add any additional comments (Including comments/suggestions regarding online supplementary materials, if any):

The manuscript itself is well-written and well-structured and I have to also commend the authors for this matter.

as many of the sentences might be misunderstood. I suggest a revision of the grammar structures by an expert editor in revising manuscripts.

Abstract:

Please check the keywords according to the MESH NCBI database and sort alphabetically.

Introduction:

Please add your hypothesis and the aim/objective of this study

Material and Methods:

It would better if you add the detailed protocol or cite the protocol reference. Every reagent and instrument that have been used in this study should in detail

Results:

Result of this study is sufficient enough with good tables presentation

Discussion:

1. Discussion of the results is quite comprehensive. In analyzing the results, the authors also show citations from the previous study to support the explanation of these results.
2. The answer to the hypothesis of this study has been included at the beginning of the discussion section.
3. Please mention the limitation(s) of this study in the discussion section.

Conclusion:

Please add the suggestion for future study.

References:

The supporting references are adequate. It would be better to add more newest references that support this study 3 articles from JIDMR

Is the manuscript within the scope of the journal?: Yes

Is there novel, previously unreported information included in the manuscript?: Yes

In your opinion, do the data support the conclusions?: Yes

In your opinion, does the manuscript require professional language revision?: Yes

Overall score/rating: 1. Excellent

Recommendation: Recommend minor revision.

Thank you for the kind opportunity that have been given to me to review this paper, Best regards.

Accept if journal need to paper:	
Reject on grounds of (please be specific):	
I would like to see after revisions	

SECTION V: Additional Comments

Please add any additional comments (Including comments/suggestions regarding online supplementary materials, if any):

First of all, I would like to congratulate the author for their effort to conduct the study and write this well-written paper. However, there are some minor revisions that should be revised by the authors.

Within the journal's scope.

This paper is suitable and accordance the Journal's scope: Medicine, Physiology, Bone Immunology

Importance (clinical or otherwise) of the work.

The novelty of this study is adequate and important enough that elucidate the Interval and Continuous Physical Activity with Moderate Intensity on Biomarker Bone Formation

Originality of the study.

This paper is original and quite new. Please attach the plagiarism check (it should be under 20%)

Appropriateness of approach or study design.

The study design and methods are clear enough. Meanwhile, in the material and methods should be cite the previous study method and add the detail of material that been used in this paper.

Soundness of conclusions and interpretation.

The authors are successfully write the clear conclusion based the good interpretation of study result.

Relevancy of discussion.

Clarity of writing and soundness of organization of the paper.

References up to date and relevant.

It should be adding more latest reference (3-5 years from 2017-2020) to support this study.

We recommend the reference from JIDMR at least 3 articles

Figures and tables.

The quality of the figures is good enough, the numbers of tables also ok (

English language:

This paper should do the grammar editing by English native speaker (proofreading), Thus, please attach the certificate of proofreading/

Title:

The title of this paper is OK, but it will be better to make it simple and clear

Introduction:

Please state the problem, why you conducted this study.

Please add the hypothesis of this study in the end of introduction section.

Material and Methods:

This section is too short and inadequate enough to explain how to do the study. Thus, please add the statistical analysis that have been used. (normality test, homogeneity test, inferential statistic).

Results:

Adequate and clear enough, the tables successfully summarize the data

Discussion:

Please add your study limitation in the end of discussion section

Conclusion:

The conclusion already answers the hypothesis and the aim of this study, however, please add the suggestion for the future study.

Is the manuscript within the scope of the journal?: Yes

Is there novel, previously unreported information included in the manuscript?: Yes

In your opinion, do the data support the conclusions?: Yes

In your opinion, does the manuscript require professional language revision?: No

Overall score/rating: 2. Good

Recommendation: Recommend accept with minor revision

Thank you for the opportunity to review this study, Sincerely Yours.
