COMMENTS for Authors:

=> Reviewer # 1

This is a well written, scientific approach. What about some references concerning ocular prosthesis worldwide?

Minor comments:

Page 2, first paragraph, 3rd line from the end: "and cosmetic reasons." pls clarify.

Pls decide if you will use small or capital f for Figures.

Figure 6, start will capital h.

Future work: what about disseminating this information to the social security system as you state that "more accepted in social life in society"? How these cases could be found out and provide them with solutions?

Conclusion: A letter(s) is missing.
