Date November 25, 2022

Dear Editor,

I/We wish to submit an original research article entitled "[EXPRESSION OF B-TRYPTASE AND CHYMASE OF LUNG MAST CELLS THROUGH HISTOPATHOLOGICAL APPEARANCE AT POST MORTEM INTERVAL DUE TO ANAPHYLACTIC SHOCK]" for consideration by Folia Medica Indonesiana. I/We also confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere.

In this paper, I/we report on / show that the expression of B-tryptase and mast cell chymase in the lungs from histopathological specimens experiencing (model) anaphylactic shock at different lengths of death (post mortem interval). This is significant because We calculated it using the completely randomized design (CRD) method. We believe that this manuscript is appropriate for publication by Folia Medica Indonesiana, because it is useful in the medical world in the future.

[Please explain in your own words the significance and novelty of the work, the problem that is being addressed, and why the manuscript deserves to be published in Folia Medica Indonesiana. Please do not insert the abstract into this cover letter. Briefly describe the research you are reporting in your paper, why it is important, and why you think the journal's readership would be interested in it].

Thank you for your consideration of this manuscript.

Sincerely,

Dr. Imam Susilo, dr., Sp.PA(K), FISCAM
 Department of Anatomical Pathology, Faculty of Medicine Universitas Airlangga - Dr. Soetomo Academic General Hospital, 60131 Surabaya, Indonesia.

Dr. Imam Susilo, dr., Sp.PA(K), FISCAM,

Thank you for submitting your manuscript to Folia Medica Indonesiana. In order to pass to the next step (peer review), we need you to resubmit your manuscript on our [Online Journal System](#) for a full consideration to be processed through the next steps. Please do not hesitate to reach out to us if you encounter any difficulty in completing the required revisions.

We are looking forward to hearing from you soon. Thank you.

Kind regards,
 Journal Editorial Officer

Dear Author(s),

Thank you for submitting your manuscript to Folia Medica Indonesiana. In order to pass to the next step (peer review), we need you to do important revisions as follows:

1. Please see the [Author Guidelines](#) and apply all rules into your manuscript diligently, as this is vital for your manuscript to be able to pass to the next step. Check whether you have completed the Submission Preparation Checklist.
2. Please use our [template](#) for your manuscript that fits the type of your study
3. Please put at least one hyperlink of the authors' ORCID ID in the logo next to the authors' name
4. Please attach the [cover letter](#) and [copyright transfer agreement & author declaration](#) that can be downloaded on our website
5. Please write your study without repeating sentences and conclude your findings in a short and comprehensive manner. You may use a third-party proofreader who can help with the grammar and structure of the writing.
6. Please write down at least one keyword of [Sustainable Development Goals](#) that reflects your study results and novelty (e.g. human & health, social determinants of health, etc.)
7. Please add a minimum of 25 references, using the most relevant and updated ones (not older than 2012). If possible, use Mendeley or EndNote reference manager for neat and organized references
8. Please complete the acknowledgment, conflict of interest, funding disclosure, and author contribution below your conclusion.

After all revisions above, you may resubmit your manuscript for a full consideration to be processed through the next steps. Please do not hesitate to reach out to us if you encounter any difficulty in completing the revision as we would be glad to help you out.

Looking forward to hearing from you soon. Thank you.

Best regards,

Note	From
Dear Author(s),	atikaw 2023-02-17 04:22 PM

There are some points that you should revise in manuscript ID 40938 entitled "Expressions of β -tryptase and chymase in the lung mast cells due to anaphylactic shock through histopathological appearance at different post-mortem intervals". Please see the comments and yellow highlights in the manuscript document and revise accordingly.

Please complete your revision in 10 working days by sending it through our Online Journal System website. The revision should be highlighted in yellow.

Kind regards,
 Journal Editorial Officer
