Referee: 1

Recommendation: Minor Revision

Comments:
Some additional theory below is suggested to make the explanation on the Islamic Objectives complete, ie:

AL GHAZALI (450H-505H/1058-111AD)

According Al Ghazali, *maslahat* means to take *manfaat* or advantage, merit or benefit or to avoid *mudarat* or disadvantage, demerit, injury or harm. However, Al Ghazali said that "that is not what I mean. The merit or advantage of man depends on whether or not they achieve their objectives. What I mean with *maslahat* is that they preserve the objectives of *syara* or the Islamic law. The objectives of the Islamic law to be maintained by human beings include 5 points, i.e., to protect (1) faith, (2) soul, (3) intellect/mind, (4) lineage/progeny, and (5) their wealth".

(KH Ahmad Munif Suratmaputra. *Filsafat Hukum Islam Al Ghazali*. 2013.:28; Al Ghazali, al Mustasfa (Beirut: Dar al- Fikr, t.th), juz 1, h 286-287).

The above basically derives from the Qur'anic verse (QS.21:107), that reads as follows: "We sent thee not but as *Rahmatan lil Alamin* (a Mercy) for all creatures".

All creatures means not only human beings, but all animals and vegetations and all others created by God.

Mercy here is identical to *maslahat* and in Indonesian means *rahmat* which are translated by many authors as welfare, benefits to mankind, the interests of all human being, public benefits or public interest.

Thus, it is in line with the objective why God creates and sends human beings to the earth. That is to create welfare from them all (QS, 2:29;QS,16:14;QS,17:66).

Additional Questions:

1. Originality: Does the paper contain new and significant information adequate to justify publication?: Yes, It does contain new and significant information adequate for publication.

2. Relationship to Literature: Does the paper demonstrate an adequate understanding of the relevant literature in the field and cite an appropriate range of literature sources? Is any significant work ignored?: Yes, it does and no significant work is ignored.

3. Methodology: Is the paper's argument built on an appropriate base of theory, concepts, or other ideas? Has the research or equivalent intellectual work on which the paper is based been well designed? Are the methods employed appropriate?: Yes. all the questions can be answered affirmatively.

4. Results: Are results presented clearly and analysed appropriately? Do the conclusions adequately tie together the other elements of the paper?: Yes, the results are presented clearly and analysed appropriately. The conclusions adequately tie together the other elements of the paper.

5. Implications for research, practice and/or society: Does the paper identify clearly any implications for research, practice and/or society? Does the paper bridge the gap between theory and practice? How can the research be used in practice (economic and commercial impact), in teaching, to influence public policy, in research (contributing to the body of knowledge)? What is the impact upon society (influencing public attitudes, affecting quality of life)? Are these implications consistent with the findings and conclusions of the paper?: Yes, it has several implications for stakeholders, ie, for government, practitioners and associations, as well as the social safety net program.

6. Quality of Communication: Does the paper clearly express its case, measured against the technical language of the field and the expected knowledge of the journal's readership? Has attention been paid to the clarity of expression and readability, such as sentence structure, jargon use, acronyms, etc.: Overall, the quality of communications can answer all the questions above affirmatively.

Some notes as indicated in yellow and red are given for improvements.

Recommendation: Major Revision

Comments:

- I would suggest you to revise the title making it more appealing such as: Mitigating the Impact of COVID-19: Social Safety Net from Islamic Perspective

- The last paragraph of 'Introduction' should be removed.

- A strong claim provided in the last sentence of 'Introduction' should be revised: " This work contributes to the development of the Islamic Objective concept by demonstrating that the Islamic Objective concepts can be used to solve any issue."

- p.3, 2.2 Social..., line 2-3,

"Individual security, family security, community insurance, and family security...." second 'family security' is repeated, it should be 'family community'.

- p.4, line 6,

"The last is an association..." should be 'The third is an..'. According to Table 2, the last is regulators group.

- p.5, Table 2 is supposed to be Table 4

- p.6, 4.2. Priority... , you mentioned "Table 4 depicts" or "see table 5", but there is no such these tables!!!

- p. 6, Table 3 should be Table 5

- p. 7, regarding 'Discussion', what is the relations of social-economic impact and ethics? Or Islamic Objectives? What is the ethical solutions for it?

- p.8, 'Conclusions' first sentence "Based on Islamic objectives, this study emphasizes which Social Safety Net program should be prioritized in dealing with the impact of Covid-19". But, you have not provided what objectives in Islam. Please clarify. Also, what is the issue as the impact of COVID-19 you mean?

Additional Questions:

1. Originality: Does the paper contain new and significant information adequate to justify publication?: This paper contains a new approach, however there is inadequate data analysis to answer the question raised in introduction.

Accordingly, the author(s) need to (i) explain 'Islamic Objective', and solution addressed in Islam in such situation; (ii) examine impact of COVID-19 and created problems in society; (iii) clarify the result of implementing priority solution suggested by the author(s).

2. Relationship to Literature: Does the paper demonstrate an adequate understanding of the relevant literature in the field and cite an appropriate range of literature sources? Is any significant work ignored?: The main point of analysis towards Islamic perspective is missing. The author(s) have failed to convince readers about Maqasid Sharia or Islamic Law on providing solution. Please specify term "Islamic Objective/s" which used in this paper.

The essential part of literature on Islamic Sharia indicators in accordance with social responsibilities was missed. The question remains "how Islamic principles can shape a society to overcome the impact of COVID-19 in socio-economy or mental health program, so far?"

3. Methodology: Is the paper's argument built on an appropriate base of theory, concepts, or other ideas? Has the research or equivalent intellectual work on which the paper is based been well designed? Are the methods employed appropriate?: The author(s) would make it if they provided a clear conceptual framework related to the issue.

4. Results: Are results presented clearly and analysed appropriately? Do the conclusions adequately tie together the other elements of the paper?: Inappropriate content.

5. Implications for research, practice and/or society: Does the paper identify clearly any implications for research, practice and/or society? Does the paper bridge the gap between theory and practice? How can the research be used in practice (economic and commercial impact), in teaching, to influence public policy, in research (contributing to the body of knowledge)? What is the impact upon society (influencing public attitudes, affecting quality of life)? Are these implications consistent with the findings and conclusions of the paper?: Not clear.

6. Quality of Communication: Does the paper clearly express its case, measured against the

technical language of the field and the expected knowledge of the journal's readership? Has attention been paid to the clarity of expression and readability, such as sentence structure, jargon use, acronyms, etc.: Professional editing is required.

The manuscript is inconsistent e.g., COVID-19 or Covid-19 or COVID 19, so which one?

Recommendation: Accept

Comments:

This is a pioneer study on this subject. And this has a worth to be published in IJOES.

Additional Questions:

1. Originality: Does the paper contain new and significant information adequate to justify publication?: Paper entitled "What is the Priority Solution in Dealing Covid-19 Impact? Study of the Islamic Objectives of the Social Safety Net (SSN)" is an original effort and has significant information. This is a pioneer study which discussed the Islamic objective of the SSN.

2. Relationship to Literature: Does the paper demonstrate an adequate understanding of the relevant literature in the field and cite an appropriate range of literature sources? Is any significant work ignored?: Yes! The current study demonstrates an adequate understanding of the relevant literature in the field and cites an appropriate range of literature sources.

3. Methodology: Is the paper's argument built on an appropriate base of theory, concepts, or other ideas? Has the research or equivalent intellectual work on which the paper is based been well designed? Are the methods employed appropriate?: The Analytic Network Process (ANP) method is employed in this study. This is an appropriate method which a researcher can apply in these type of papers.

4. Results: Are results presented clearly and analysed appropriately? Do the conclusions adequately tie together the other elements of the paper?: The results presented clearly and analyzed appropriately and the conclusions adequately tie together the other elements of the paper.

5. Implications for research, practice and/or society: Does the paper identify clearly any implications for research, practice and/or society? Does the paper bridge the gap between theory and practice? How can the research be used in practice (economic and commercial impact), in teaching, to influence public policy, in research (contributing to the body of knowledge)? What is the impact upon society (influencing public attitudes, affecting quality of life)? Are these implications consistent with the findings and conclusions of the paper?: Yes! it has a lot of implication in mitigating the impact of COVID-19 by applying the Islamic ethical and moral norms.

6. Quality of Communication: Does the paper clearly express its case, measured against the technical language of the field and the expected knowledge of the journal's readership? Has attention been paid to the clarity of expression and readability, such as sentence structure, jargon use, acronyms, etc.: This study clearly expresses its case, measured against the technical language of the field and the expected knowledge of the journal's readership.

FOR OPEN ACCESS AUTHORS: Please note if you have indicated that you would like to publish your article as Open Access via Emerald's Gold Open Access route, you are required to complete a Creative Commons Attribution Licence - CCBY 4.0 (in place of the standard copyright assignment form referenced above). You will receive a follow up email within the next 30 days with a link to the CCBY licence and information regarding payment of the Article Processing Charge. If you have indicated that you might be eligible for a prepaid APC voucher, you will also be informed at this point if a voucher is available to you (for more information on APC vouchers please see <http://www.emeraldpublishing.com/ospartnerships>)

Thank you for your contribution. On behalf of the Editors of International Journal of Ethics and Systems, we look forward to your continued contributions to the Journal.

Yours sincerely,
