Dear Editor

Let me introduce myself. My name is Dr. Eighty Mardiyani Kurniawati, dr., Sp.OG(K) from Faculty of Medicine, Universitas Airlangga, Indonesia.

I/We wish to submit a new manuscript entitled "Antimicrobial activity in red ginger as a treatment for women's urinary tract infections: A systematic review and meta-analysis of experimental study" for consideration by the Tropical Journal of Natural Product Research.

I/We confirm that this work is original and has not been published elsewhere nor is it currently under consideration for publication elsewhere.

I tried to submit via the website but there seems to be an error.

We look forward to hearing from you soon. Thank you

Best regards

Eighty M.K

Review Comments (Antimicrobial activity in red ginger as a treatment for women's urinary tract infections: A systematic review and meta-analysis of experimental study)

**Editorial comments to authors**

Include a section for abstract in manuscript.

**Table 1-3:** Use recommended table format (No borders except for column headings and bottom border).

**In-text references should be in superscript numerals without brackets.**

List of references should follow journal adopted format. See journal website at <http://www.tjnpr.org/guideforauthors.aspx#> for details. Abbreviate all journal names.

For reference section: Include journal name, volume and/or complete page numbers for no; 5, 17, 18, 23, 26. replace 'et al' with names of all contributing authors for no; 1,

Authors should cite at least two related (2) references in the published papers of TJNPR

A declaration of the liability of the authors for claims relating to the content of this article should also be included when submitting the revised manuscript. This should be stated as follows;

**Authors' Declaration**

All comments/corrections made by reviewers should be completely addressed, point by point, and make appropriate changes in the manuscript, or provide a suitable rebuttal to any specific request for change that has not been made.

All corrections/changes made in the manuscript should be highlighted in yellow colour when submitting the manuscript in the revised form on or before 17th August 2022

The authors should carefully revise and correct the manuscript taking into consideration the comments of all the reviewers. 50% of the references cited should be between 2016-2020. The revised and corrected manuscript should be subjected to plagiarism checker (17% allowed in TJNPR) and English language editing. Evidence of the checks should be attached when submitting the revised/corrected manuscript.

During submission of the revised manuscript include another file labelled "Responses to reviewers' comments" (a matrix) clearly showing your responses to each of the issues raised by the reviewers; mention the section, page and paragraph/lines where and how the changes/corrections have been made.

Strictly adhere to the author guidelines. Make sure that all the facts and information provided in the manuscript are correct. Check grammar, spelling, spacing, other information and facts including scientific names, formulae, symbols, equations, etc.

Ensure that all the references are correctly cited in the text and list. Verify all the references from their original sources. Confirm correctness of the citation info such as authors' names (surnames, initials, spelling, arrangements, etc), year, title, journal, volume, pages, punctuation, etc. The numbers and units must be presented according to the journal style. Use clearly distinguishable patterns for the illustrations/figures (e.g., graphs and charts) such that they should be legible even for black and white printing or when reduced in size.

Proofread the whole document after effecting all the corrections. The revised version should be approved by all the co-authors before submitting it.

A manuscript not complying with these and other instructions will not be processed and may be rejected.
