
Decision fullpaper submission for ICPHS 2020

Scientific ICPH Fakultas Farmasi Universitas Airlangga <scientificicph@ff.unair.ac.id>

Mon, 23 Nov 2020 10.09

To: <ramidha.syaharani-2018@fk.unair.ac.id>

Dear Author,

Thank you for submitting fullpaper for special issue of International Conference of Pharmacy and Health Sciences (ICPHS) 2020 in the Journal of Basic and Clinical, Physiology and Pharmacology (JBCPP). Congratulation your manuscript entitled "**The effect of Camellia sinensis (Green tea) with its active compound EGCG on neuronal cell necroptosis in Rattus norvegicus Middle Cerebral Artery Occlusion (MCAO) model**" has passed the initial screening by the ICPHS Scientific Committee. Please submit your manuscript to the JBCPP website <https://mc.manuscriptcentral.com/jbcpp>

Before submitting your manuscript to JBCPP website please check requirements below:

1. Revise the manuscript according to the template provided in this email. Note there are two templates provided, for original research article and review article. Please select one according to the type of your manuscript)
2. Other documents needed for submission: 1) cover letter, 2) declaration of conflict of interest and 3) ethical and legal declaration.

Please submit manuscript together with all requirements to JBCPP webiste no later than November 29, 2020. Guideline for submission to the journal is attached in this email.

If your have further enquires, please do not hesitate to contact us.

Best Regards

ICPHS Scientific Commitee

28-Nov-2020

Dear Miss Syaharani,

Your manuscript entitled "The effect of Camellia sinensis (Green tea) with its active compound EGCG on neuronal cell necroptosis in Rattus norvegicus Middle Cerebral Artery Occlusion (MCAO) model" has been successfully submitted online and is presently being given full consideration for publication in Journal of Basic and Clinical Physiology and Pharmacology (JBCPP).

Your manuscript ID is JBCPP.2020.0438.

Please mention the above manuscript ID in all future correspondence or when calling the office for questions. If there are any changes in your affiliation, street address or e-mail address, please log in to ScholarOne Manuscripts at <https://mc.manuscriptcentral.com/jbcpp> and edit your user information as appropriate.

You can also view the status of your manuscript at any time by checking your Author Center after logging in to <https://mc.manuscriptcentral.com/jbcpp>.

Thank you for submitting your manuscript to JBCPP.

Kind regards

Ms. Katharina Appelt

29-Jan-2021

Dear Miss Syaharani:

Thank you again for submitting your manuscript ID JBCPP.2020.0438 entitled "The effect of Camellia sinensis (Green tea) with its active compound EGCG on neuronal cell necroptosis in Rattus norvegicus Middle Cerebral Artery Occlusion (MCAO) model" to Journal of Basic and Clinical Physiology and Pharmacology (JBCPP). Your manuscript has been reviewed and requires major modifications prior to acceptance. The comments of the reviewer(s) are included at the bottom of this letter.

I invite you to respond to the reviewer(s)' comments and revise your manuscript.

To revise your manuscript, log into <https://mc.manuscriptcentral.com/jbcpp> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts Awaiting Revision". Under "Actions", click on "Create a Revision". Your manuscript number has been appended to denote a revision.

You may also click the below link to start the revision process (or continue the process if you have already started your revision) for your manuscript. If you use the below link you will not be required to login to ScholarOne Manuscripts.

PLEASE MAKE SURE TO CONFIRM YOUR CHOICE ON THE WEB PAGE AFTER CLICKING ON THE LINK

https://mc.manuscriptcentral.com/jbcpp?URL_MASK=bd9b9c215ee84c649b6910ab73ffe135

The revised paper needs to be submitted within 3 weeks from now.

When submitting your revised manuscript, you should also respond to the comments made by the reviewer(s). Please add

1. a point-by-point reply to the reviewers' comments
2. and/or a rebuttal against each point that is being raised

You will be able to respond to the comments made by the reviewer(s) under File Upload - File Designation - Author's Response to Reviewer/Editor Critique. Reply to the reviewer(s)' comments is mandatory; all revised manuscripts without reply will be sent back to the author.

You will be unable to make your revision on the originally submitted version of the manuscript. Instead, revise your manuscript and save it on your computer. Please send in a clear corrected version of your manuscript according to the reviewers as well as a format in which you highlight the changes to your manuscript within the document by using underlined or colored text.

Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

Your original files are available to you when you upload your revised manuscript. You may delete these files or keep them. Please pay attention to the order of your uploaded files; the first one is the reply to the reviewer(s)' comments,

followed by the revised manuscript, and, if applicable, Tables and Figures, and Supplementary Material. If you decide to keep the original files, these must be the last ones in the order of your uploaded files.

Once again, thank you for submitting your manuscript to JBCPP. I look forward to receiving your revision.

Kind regards

Dr. Suciati Suciati

Guest Editor, Journal of Basic and Clinical Physiology and Pharmacology

Editor's Comment to author:

- Based on the result of similarity check your article has 35% similarity index (file attached), which is above the requirement of the journal (30%). We suggest you to rewrite/paraphrase some sentences to fulfill this requirement.
- Author should proofread the article prior to submission of the revised manuscript. Evidence of the proofreading should be attached together with submission of the revised manuscript.

Reviewer(s)' Comments to Author:

Reviewer: 1

Comments to the Author

All figures and tables should be mentioned in the text of manuscript. Figure 2 and table 1 weren't properly elaborated in Result section - those green arrows should not be only mentioned in Discussion. There were many typographical errors that should be addressed by the Authors.

Reviewer: 2

Comments to the Author

Comments for JCBPP.2020.0438.

1. Authors need to improve the language and the writing structure and flow. Authors may use proof reading service in order to do so.
2. Authors need to double check the writing of decimal point throughout the manuscript. A point (small dot) should be used to separate the whole number part from the fractional part of a number; not a comma. Example: in the number 36.9 the point separates the 36 (the whole number part) from the 9 (the fractional part, which really means 9 tenths).
3. Any abbreviation should be written in a full name for the first mention in the manuscript, followed by the abbreviation in a bracket (A title is not including as part of first mention). Afterwards, authors can use the abbreviation.
4. The study design did not provide enough information which would affect the way the results were analyzed and discussed.

Specific comments:

1. There is no authentication of the green tea used in this study actually *Camellia sinensis*; either by herbarium sample or any characteristic analysis such as using finger print (such as IR, HPLC or MS analysis and comparing it with the standard sample).
2. The presented work is comparing the results between the epigallocatechin gallate (ECGC) and the green tea (sample). And since green tea is known to contain ECGC, authors should analysed the ECGC contain (qualitatively and quantitatively) in the green tea sample. Only by knowing the quantity of the ECGC in the green tea sample, authors can compare the results /findings to the ECGC standard.
3. Authors need to clarify a few things regarding the study design.
 - a. What was the control group meant by the authors? Was it normal control group or MCAO model-control group?
 - b. How authors confirmed the MCAO rat model was successful to cause neuronal cell necroptosis prior introduction the ECGC / green tea sample?
 - c. What was the basis of the dosage used for ECGC and the green tea? Since the ECGC is considered pure (standard), how come the extract/green tea dose was the same to the standard?
 - d. Why authors just choose one dose instead of, at least, three doses – so the results would be more conclusive either they are dose dependent or not ?

- e. How were the ECGC and the green tea sample prepared? What was the method to introduce the sample/ECGC to the animal?
 - f. What was the method used to sacrifice the animal by the end of the study?
 - g. How was the tissue for histopathological work prepared?
 - h. Which statistical analysis was employed to analyzed the data? What was the significant value (p value) used? And, what was the software used to analyzed the statistical value?
4. Authors need to clarify a few things regarding the results.
- a. What was/were the indicator(s) used to observe the necroptosis evidence in the descriptive analysis?
 - b. Has the histopathological analysis confirmed by a pathologist?
 - c. Authors need to include few legends or notes in the presented figure 2.

Dear Miss Syaharani:

Thank you again for submitting your manuscript ID JBCPP.2020.0438.R1 entitled "The effect of Camellia sinensis (Green tea) with its active compound EGCG on neuronal cell necroptosis in Rattus norvegicus Middle Cerebral Artery Occlusion (MCAO) model" to Journal of Basic and Clinical Physiology and Pharmacology (JBCPP).

We have received the revised version of the manuscript, however there are minor revision needed: Please check how to write scientific name of plant/animal. The title as well as the entire manuscript should be checked and revised.

Please log into <https://mc.manuscriptcentral.com/jbcpp> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts Awaiting Revision". Under "Actions", click on "Create a Revision". Your manuscript number has been appended to denote a revision.

You may also click the below link to start the revision process (or continue the process if you have already started your revision) for your manuscript. If you use the below link you will not be required to login to ScholarOne Manuscripts.

PLEASE MAKE SURE TO CONFIRM YOUR CHOICE ON THE WEB PAGE AFTER CLICKING ON THE LINK

https://mc.manuscriptcentral.com/jbcpp?URL_MASK=1a7eaf2040784a8e8353da72ed6c5e97

The revised paper needs to be submitted within 1 week from now.

You will be able to respond to the comments made by the reviewer(s) under File Upload - File Designation - Author's Response to Reviewer/Editor Critique. Reply to the reviewer(s)' comments is mandatory; all revised manuscripts without reply will be sent back to the author.

You will be unable to make your revision on the originally submitted version of the manuscript. Instead, revise your manuscript and save it on your computer. Please also highlight the changes to your manuscript within the document by using underlined or colored text.

Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

Your original files are available to you when you upload your revised manuscript. You may delete these files or keep them. Please pay attention to the order of your uploaded files; the first one is the reply to the reviewer(s)' comments, followed by the revised manuscript, and, if applicable, Tables and Figures, and Supplementary Material. If you decide to keep the original files, these must be the last ones in the order of your uploaded files.

Once again, thank you for submitting your manuscript to JBCPP. I look forward to receiving your revision.

13-Mar-2021

Dear Miss Syaharani:

I would like to thank you for submitting your manuscript entitled "The effect of *Camellia sinensis* (Green tea) with its active compound EGCG on neuronal cell necroptosis in *Rattus norvegicus* Middle Cerebral Artery Occlusion (MCAO) model" to Journal of Basic and Clinical Physiology and Pharmacology (JBCPP). Your manuscript has been reviewed, and it is a pleasure to accept it for publication in JBCPP. The comments of the reviewer(s) are included at the bottom of this letter.

We require publication charges to cover our editorial and production expenses. The publication charges are 3.500.000 IDR or 250 USD or 1025 MYR for the accepted article. You are required to process with publication charges upon acceptance of your article (no later than 5 days after acceptance letter). Please upload proof of payment through the following link: <http://bit.ly/39bcHI2>

Payment should be made to the following account:

Account number: 9883030300000065

Account name: Universitas Airlangga

Bank Name: BNI

or

Bank Account Name: Tutik Sri Wahyuni_ICPHS_2020

Account Number: 1420018261668

Bank Name: Mandiri

Swift Code: BMRIIDJA

The JBCPP production office will contact you for proofreading in the near future. Your article will be published ahead of print as soon as possible, and assigned to an online issue at a later time.

Thank you for your fine contribution. On behalf of the Editors of Journal of Basic and Clinical Physiology and Pharmacology we look forward to your continued contributions to the Journal.

Kind regards

Dr. Suciati
