Dear editors,

I attached my manuscript along with this email. Unfortunately, I do not finish it yet. It is totally my faults that I am just aware that the deadline is near closed. The attached manuscript is half of my manuscript with the planned writing points. If there is still a chance for me to participate in this edited book, please let me know. I'll try to finish it in a week or two. I sincerely apologize for this inconvenient.

Thank you for your understanding

Kepada: NUZULUL KUSUMA <nuzululkusuma@fkm.unair.ac.id>

Dear Nuzulul,

The editors have reviewed the next version of your chapter. We think that the content is very interesting and would like to work with you to include it in the book. However, we are not able to include it as it currently is written. Overall, there were some issues with the structure and flow.

We have made some suggested edits in the attached. You'll see that the content has been cut down quite substantially. We think that a shorter and more structured paper would be clearer. (however more information is needed in the attached - this is just a suggestion of the direction it could go in). Can you please review the attached and let us know what you think of the new direction and what your thoughts are regarding the content? Some of the analysis included in the original paper was very interesting, however, we didn't feel that it worked in terms of overall flow and structure. There is still opportunity to include it if the links between the different sections can be strengthened.

kind regards,  
Rosemary

I agree with the suggestions. I am so sorry for my weakness in structuring the article. I am an early-career author so I believe that the suggestion is very meaningful for my skill in writing. For sure, I will try to add information needed as soon as possible.

Dear Rosemary,

I have tried to add any information that you suggested. What I understood by reading your comments is that I should focus on the issue of the glass ceiling in the matriarchal and patriarchal society and why it is also happening in the matriarchal. Hence, I have added discussion about those things. Please correct me if I am wrong.

Looking forward to hearing the next reviews. I will do my best for this chapter.

Thank you

Kepada: NUZULUL KUSUMA <nuzululkusuma@fkm.unair.ac.id>

Dear Nuzulul,

I apologize for the delay in getting back to you - things have been delayed on our end due to COVID-19 among other things. I am happy to report that your chapter has been accepted for publication. Please find a slightly revised chapter to the one you sent in attached. Can you please review this and make sure you are happy with it? There are also two comments for you to address.

I am also happy to report that we are submitting the book to Springer at the end of this month. We have now received all contributions and are currently having everything proofread. Please do accept my apologies for the delay. The launch of the book is now scheduled for early 2021 as per Springer's timeline.

Can I ask that you please sign the attached consent to publish form and return to me by August 24th? This is required by Springer.

Here is the guidance that we received from Springer: "The lead or corresponding author will sign on behalf of the chapter authorship. The form must have all fields completed, including the full names of all authors in the correct order of authorship."

If you have any questions please do not hesitate to get in touch.

Thank-you!

kind regards,

Rosemary
