Dear Dr. Alsagaff,

It is a pleasure to accept your revised manuscript entitled "Diagnosing STEMI in Right then Left Bundle Branch Block Pattern Ventricular Escape Rhythm (Case Report)" in its current form for publication in the Oxford Medical Case Reports. The comments of the reviewer(s) who reviewed your manuscript are included at the foot of this letter.

The next step is for your paper to go through "First Look". During this step we will be checking whether you need to make any formatting changes or supply any additional files necessary for publication. If any action is needed from you, we will be in touch again shortly to let you now what is required.

If no changes are needed, your submission will be transferred to our Production Department and you will hear from the Production Editor in due course.

In order to publish your article, Oxford University Press requires that you complete a license agreement online. A link to the online licensing system, and instructions on how to select and complete a license, will be provided to you by the Production Editor at Oxford University Press once they have received your final files.

You will receive your official acceptance date from Oxford University Press once you have signed your licence to publish. (N.B. If you are a UK-based author and are looking to comply with the HEFCE policy on open access in the Research Excellence Framework, you should use the official acceptance date when depositing in your repository).

Thank you for your contribution. On behalf of the Editors of Oxford Medical Case Reports, we look forward to your continued contributions to the Journal.

Yours sincerely,

Dr. Vassilios Vassiliou  
Senior Editor  
Professor Richard Watts, Oxford Medical Case Reports  
Editor in Chief

Comments to the Author:  
Dear authors,  
Thank you for your substantial efforts to improve the article.

Reviewer: 1

Comments to the Author  
This is an interesting case report with great EKG learning points.

Reviewer: 3

Comments to the Author  
Interesting report.  
However, the case report needs to be reviewed for grammar, tense agreement, syntax, etc.  
Please utilize the help of a Scientific English editor.
