Dear Authors,

Thank you for submitting your article entitled: **“Characteristics of patients with nasopharyngeal carcinoma in Dr. Soetomo General Academic Hospital Surabaya.”**

Here are some revisions to improve your article:

1. Sentence “Indonesia is one of the countries with a high prevalence of NPC patients outside China” in the Introduction section was cited with an unspecified journal. Please fix the citation using an appropriate study.
2. In Table 1, the total participants in the “Age” and “Worker” row is not equal to 262 participants. Please re-assess the number of every participant in those variables so that it can match 262 participants.
3. In Table 1, please re-define the grouping in the age variable, because there is an inappropriate grouping (>60 years old).
4. There is a discrepancy between the data displayed in the Table 1 with the data presented in the first paragraph of Results section [The most age range was 41-50 years, 85 patients (32.44%); Most sufferers are private employees, for example, fast food restaurant employees, repair shop employees and others, with 67 sufferers (25.57%)]. Please fix this issue.
5. What is the limitation of this study? Please elaborate and include it at the end of the discussion section.
6. Sentence “Yenita and Asri’s research (2010) on NPC cases in West Sumatra based on WHO 1978 found WHO-3 as the most common type at 68%. Although there are differences...” in the discussion section was cited incorrectly. Please fix the citation using an appropriate study.
7. Please include the statement regarding ethical clearance of this article.

Please revise your article and send it back to us in **7 days (May 3rd, 2023)**, and type the revision on the attached manuscript below.

Thank you for trusting us with your hard work and we are looking forward to your response.

Warm regards,
