Dear Dr Setiawati

Dove Medical Press invites you to join our peer review community. Our expert reviewers greatly contribute to the high standards of the journal.

The reviewer selection team search and invite peer reviewers in the same area of medicine and science as our authors and we hope that you will be willing to provide your expert assessment on this article.

Manuscript title: Giant cell tumor in the diaphysis of the humerus: A case report

Article type: Case report

Author: Prof. Dr. Yoyos Dias Ismiarto

Journal: Orthopedic Research and Reviews
<https://www.dovepress.com/orthopedic-research-and-reviews-journal>

Abstract: Background: Giant cell tumors (GCT) usually occurred in the epiphysis of the long bones. However, a few proportions of patients may develop GCT in non-epiphyseal locations.

Case Presentation: We report a rare case of a giant cell tumor located in the upper third diaphysis of the right humerus in a 17 years old woman. The patient complained of pain in her right upper arm with deformity and limitation of movement during shoulder abduction. Radiographic examination revealed widened diaphysis of the upper third humerus with cortex thinning and more lucent trabeculae. Histopathological examination showed a tumor mass consisting of hyperplastic round, oval, and spindle-shaped cells with a relatively normal nucleus. There were also many osteoclast-like giant cells and bone lamellar with normal osteocytes which surround that tumor, consistent with the appearance of GCT. This case was successfully managed by performing intralesional curettage with bone cement. The patient was discharged after 3 days of hospitalization. At the follow-up visits six months and one year after surgery, there is no complaints nor complications observed and recurrence did not occur.

Conclusion: We suggest that GCT should also be considered as a possible diagnosis whenever there is a tumor located in the diaphysis of long bones.

We would appreciate your response to this email by 4 Jan 2023. If you agree to review this manuscript, your comments will be due 10 days from accepting the invitation.

Peer-review comments can only be accepted online via our reviewer system. We cannot accept downloaded manuscript files that you have annotated or modified in any way.

This link https://www.dovepress.com/reviews.php?I=ixUvDj1hqhA1oAIYCIVfZMKB1726929&review_id=4860878 will take you directly to your peer review interface (a password isn't required). You will be able to:

- Accept or decline the review invitation
- We provide a structured peer review evaluation form which guides the reviewer through the important points for consideration when evaluating a manuscript.
- Information on Peer Review guidelines
- Download all files

The authors manuscript or existence of a manuscript is provided to you on a confidential basis. An author's manuscript may not be disclosed in whole, or in part, to any third party under any circumstances. In addition, you may not forward this invitation to any third party. It is a personal invitation to you alone.

I thank you for considering our invitation.

If you have any questions do not hesitate to contact me.

Yours sincerely

Ms Eileen Dixon

Dear Dr Setiawati

Thank you for agreeing to review the manuscript:

Manuscript title: Giant cell tumor in the diaphysis of the humerus: A case report

Article type: Case report

Author: Prof. Dr. Ismiarto

Journal: Orthopedic Research and Reviews

We would appreciate receiving your comments by 8 Jan 2023.

To access the manuscript and complete your review, please click on the following link:

https://www.dovepress.com/reviews.php?l=ixUvDj1hqaA1oAlYCVfZMKB1726929&review_id=4860878

Our expert reviewers greatly contribute to the high standards of the Journal, and we thank you for your participation.

- * Your peer review should provide an objective critical evaluation on the technical aspects of the paper.
- * Your report must contain a recommendation and a description of your reasons for that recommendation.
- * If you believe the paper needs changes to be made before it is acceptable, please make suggestions on how to improve the paper.

Please note:

* Peer-review comments can only be accepted online via our reviewer system. We cannot accept downloaded manuscript files that you have annotated or modified in any way.

* On the review page there is an area for "Evaluation" comments for the author and an area for "Confidential Comments" comment intended for the Editor-in-Chief only. It is important to be careful to enter your comments in the correct section, so as to keep your anonymous comments intended for the authors separate from any confidential remarks intended for the Editor.

* When you have completed your review, and are ready to submit it to the Editor, click on "Submit."

* Please remember that all communications regarding this manuscript are privileged and confidential.

Many thanks for your assistance with this paper and I look forward to hearing from you.

Kind regards
Ms Dixon

Dr Setiawati

Journal Name: Orthopedic Research and Reviews
Title: Giant cell tumor in the diaphysis of the humerus: A case report
Submission ID: 401577

On behalf of the author(s) and Dove Medical Press I would like to thank you for providing peer review comments for this manuscript. The time and effort that you have put into this review is most appreciated.

You can now view and download your peer-reviewer acknowledgement certificate here (just click on "Orthopedic Research and Reviews" to view the PDF):

https://www.dovepress.com/peer_reviewer_acknowledgement.php?l=ixUvDj1hqhA1oAIYCIVfZMKb1726929

To see your current and previous reviewed contributions, you can also go to our reviewer summary page in your account; <https://www.dovepress.com/reviews.php?pa=history&l=ixUvDj1hqhA1oAIYCIVfZMKb1726929>

As one of our peer-reviewers you will receive a written acknowledgement for your efforts. In addition, each journal will publish an annual list of peer-reviewers that have contributed to the journal.

I would also like to take this opportunity to invite you to submit a manuscript to one of our journals through our Favored Author Program. This will give you the following benefits on any papers you submit to us:

- * 10% discount on your publication processing fee.
- * Fast-track processing of papers.
- * Rapid delivery of a PDF of your paper for your personal use.

To join this program simply register here https://www.dovepress.com/fav_author.php

Alternatively you can reply to this email. I will be in contact to make arrangements.

These benefits start from the time you join our Favored Author program and will apply to all papers you submit after this point.

Favored Author must be submitting author and use registered email address to receive discount. Discount cannot be applied retrospectively to already submitted papers.

Regards

Jenny Dalton
