Dove Medical Press – Confirmation of Revision Period  
To: Mrs Rochmah

19 May 2021 11:04

Dear Mrs Rochmah

**Titled:** Quality of life differences in pre- and post-educational treatment in type 1 diabetes mellitus during COVID-19  
**Submission ID:** 313575

Thank you for confirming your intention to submit a revised manuscript for Diabetes, Metabolic Syndrome and Obesity: Targets and Therapy. I have noted a due date of 08 Jun 2021 in our system. If you require further time, please let us know as soon as possible. We look forward to receiving your revised manuscript.

When submitting your revised manuscript, please include a point-by-point response letter. This letter must contain all comments made by the reviewers, the Editor and the editorial staff, and your responses to these comments. The response letter assists the Editor in their final decision.

Dove Medical Press does not generally permit changes to the author list of a submitted manuscript. As per our Authorship Policies ([https://www.dovepress.com/editorial\\_policies.php?content\\_id=3521](https://www.dovepress.com/editorial_policies.php?content_id=3521)) we support the GPP3 guidelines which indicate that the addition or removal of an author should only occur in rare cases, such as the work undergoing substantial revisions in response to reviewer or Editor comments.

Please use the following link to submit your revised manuscript, response letter and any additional revised or requested files.  
[https://www.dovepress.com/upload\\_files\\_new.php?submission\\_id=313575&l=A9YDypACsLaPnI7OrubimGgK1466517](https://www.dovepress.com/upload_files_new.php?submission_id=313575&l=A9YDypACsLaPnI7OrubimGgK1466517)

**VIDEO ABSTRACT**

We would also like to invite you to submit a short video abstract, which will be published with your paper. This is an initiative that encourages videos to be presented by the author(s). The video should be of 1-3 minutes duration and give an overview of their paper, so readers can get an idea of the content and motivation behind the paper.

If you are able to prepare a video abstract for this paper please ensure this is completed and submitted at the same time as your revised manuscript, as we will be unable to accept a video abstract at a later stage in the process. In the meantime the guidelines and an example video abstract are available here:
