**Published:** 2021-11-30

## Articles

### **Antibacterial Activity of (+) Usnic Acid against Multi Drug Resistant Acinetobacter baumannii from Clinical Isolates**

B. Nagaraju, K. Fathimunnisa, R. Vijayaraghavan, B. Sreekanth

11-17

### **A Comparative study to Evaluate the Efficacy of Supervised Exercise Program and Cyriax Physiotherapy on Pain and Function in Lateral Epicondylitis**

Gouri Kalaskar, Pratik Phansopkar

18-24

### **Deleted**

25-28

### **A Study to Assess Respiratory Health Status among Bricks Workers**

Jyot B. Darji, Siddaram Sarate

29-32

### **Study of Ossification Centres Around the Elbow and Wrist of Adolescent Age Group 15-18 Years**

Kishore Kumar.G, R.Jenifer Jacqueline

33-40

### **Cheiloscopy - A Tool For Identification in Twins**

M.Sugatha, R.Jenifer Jacqueline, M.Taqiuddin Khan

41-46

### **Synthesis, Characterization, Molecular Docking of Sulphamethoxazole Schiff Base Metal Complexes and Its Antibacterial, Anti-Inflammatory and Anti Depressant Activity**

R.Gandhimathi, Magdivari Sangeetha

47-57

### **Aortic Atherosclerosis and Risk Factors: A Clinico- Demographic Autopsy-Based Study**

Mainak Tarafder, Suparna Datta, Ranjan Biswas, Prabir Chakraborty, Saptarshi Chatterjee

58-65

### **Estimation of Stature & Gender from Thumb Indices in Indian Population**

Mohite Hemlata S, Kakade Satish V, Mohite Sandeep S, Roy Priya P, Doshi Megha A

66-75

### **Sudden Death with Dual Organ Pathologies–An Autopsy -based Case Report**

Mukul Sharma, Kimi Soumya Padhi, Govinda Balmuchu, Prachi Nemani, ManasRanjan Sahu

76-82

### **Demographic Study of Unnatural Deaths in Paediatric Age Group in General Hospital, Khammam**

N. Devchand, A. Krishnanjaneyulu, Raja Sekhar Uppu, Uday Pal Singh  
83-88

### **Emergence of Synthetic Cannabinoids as Drugs of Abuse**

Nupur Joshi, Mahipal Singh Sankhla  
89-97

### **A Study of Metacognition in Adults with Type II Diabetes Mellitus – A Cross Sectional Study**

S.Dhivyashri, A.Sangeetha, Kumaresan M, A.V.Anuja, Karthika M  
98-103

### **Anti-Smoking Campaign – An Innovative Initiative against Smoking by Tertiary Care Teaching Institute of North India**

Shweta Talati, Pankaj Arora, Anil Kumar Gupta, Prem Chand Sharma  
104-109

### **The Economic Impact of Government Sponsored Health Insurance Schemes on a Tertiary Care Multispeciality Hospital in South India**

Sri Theja Karra, Rajesh Kamath, Charan Tej Koyi, Renu Mirchandani, Kamath Madhusudana, Biju Soman  
110-119

### **Hate Speech Against Disabled Persons: A Forensic Analysis of Legal Framework in India and Beyond**

Suvidutt M.S, Aditya Tomer  
120-125

### **Assessment and Evaluation of Implantology Courses for Post Graduate Students**

Swati M Devani, Arvind I Moldi, Shrikar Desai, Amol Sangewar, Gaurav Khemaria, Vijay Namdevrao Yannawar, Shubhangi Lokhande  
126-132

### **Effectiveness of Learning Software for Teaching Curricula and their Influence on Developing Thinking Skills and Achievement among Senior Students**

Israa Yaseen Abdul-Kareem, Ban Abdul-Rahman Ibraheem, Iman Hamad Shihab  
133-139

Pdf

### **Health Satisfaction in Health Care between Patients of 3rd Tertiary Allergy Center in Kirkuk with Salam Primary Health Care Center Patients in Kirkuk**

Abdulameer Anwar Samad, Fakher Abobaker Ahmed Gli, Chinar Baqir Kanbar, Diyar Mohammed Majeed  
140-148

Pdf

### **Strengthening Human Resources as Lecturers Through the E-Learning Learning Method**

Agus Supinganto, Suharmanto, Irwan Budiana, Kusniyati Utami  
149-154

Pdf

### **Study of Lipid Profile, Lipid Peroxidation and DNA Damage in Patients with Coronary Artery Disease**

Ahmed Jabbar AL Jabbiry, Kadhun J. Gattia, Hazim I. Abd Albari  
155-161

Pdf

### **The Effect of Aquatic Exercises on Special Endurance (Strength and Speed) and Achievement Run (800m) for Youth**

Ahmed Elewy Arhem, MazinEnhier Lami  
162-167

Pdf

### **Association of Adipoq +45 T>G Gene Polymorphism with Insulin Resistance and Icam-1 Value in Obese Adolescents**

Alexander Leonard Caesar Josediputra, Nur Aisiyah Widjaja, Roedi Irawan  
168-175

Pdf

### **Hemorrhagic Varicella in a 41-Year-Old Woman with Evans Syndrome : Case Report**

Alfina Rahma, Eka Devinta Novi Diana, Frieda, Wibisono Nugraha, Muhammad Eko Irawanto, Moerbono Mochtar  
176-183

Pdf

### **Estimation of Interleukin-10 and Interleukin-22 Levels in the Advances of Breast Cancer**

Ali Jabbar Abd Zaid Al-Kilabi, Ghada Basil Ali Alomashi

184-190

### **Occupational Health Hazards among Workers at Government Garment Factory in-Al Najaf City**

Ali Sadoon Almusawy, Murtadha K. Adea Aljebory

191-195

### **Relationship between Parenting Stress and Risk of Attention Deficit Hyperactivity Disorder (ADHD) in Elementary School Children**

Alma Rossabela Setyanisa, Yunias Setiawati, Irwanto, Izzatul Fithriyah, Satria Arief Prabowo

196-203

### **Quantitative Risk Assesment of Benzene Exposure in Printing Industry X Surabaya City**

Amanda Fithri Habibati, Abdul Rohim Tualeka, Juliana Jalaludin, Syamsiar Russeng, Ahsan, Puji Rahmawati

204-212

### **Age Estimation with Cemental Incremental Lines in Normal And Periodontally Diseased Teeth Using Phase Contrast Microscope**

Ameena Sultana, Heena Zainab, Pramod Jahagirdar, Deepa Hugar, Shaimaa

213-223

### **Vascular Endothelial Growth Factor (VEGF) Expression on Placenta Accreta Spectrum (PAS) FIGO Grading**

Ana Puji Rahayu, Agus Sulistyono, Ernawati, Grace Ariani, Rozi Aditya Aryananda

224-229

### **Sexual Dimorphism and Clinical Relevance of Thickness and Angulation of Lateral Lamella of Cribriform Plate-A Multidetector Computed Tomographic Study**

Anandagouda V Naikanur, Balappa M Bannur, Manjula Patil, Sanjeev I Kolagi

230-236

### **Effectiveness of Pisang Raja Peel Extract (*Musa Paradisiaca L*) on Bacterial Growth of *Porphyromonas Gingivalis* as the Cause of Periodontitis**

Andy Fairuz Zuraida Eva, Masriadi, Nur Rahmah Hasanuddin, Muhammad Ajis

237-243

### **Measurement of Maximal Oxygen Uptake (VO2Max) as a Cardiorespiratory Physiological Fitness Parameter Using Sensor Technology-Based Device Development**

Anton Komaini, Wiyonna Gusvominesia, Syahrial Bakhtiar, Yendrizal, Novadri Ayubi

244-250

### **Alpha-Mangostin and Gamma-Mangostin Isolated from Mangosteen (*Garcinia mangostana L.*) as Promising Candidates against SARS-CoV-2: A Bioinformatics Approach**

Arif Nur Muhammad Ansori

251-258

### **Prevalence of Musculoskeletal Disorder in Wrist and Fingers among Amateur Piano Players in Vellore**

Ashish Mathew A, S.F.Mariyam Farzana

259-266

### **Estimate of Biological Activity of Parsley extract on the Isolated Pathogenic Bacteria in Baghdad City**

Ashwak Jasim Kzar Shammari

267-273

### **Psychological Autopsy: A Lead to the Truth Untold**

Mohd Asrarul Haque

274-277

### **Diplopia as the Initial Manifestation of Cerebral Vasculitis in a Patient with Systemic Lupus Erythematosus: Diagnostic Approach and Challenges**

Audy Ariana, Awalia

278-282

### **The Levels of Salivary IgA and Lactoferrin and Some Salivary Parameters in Waterpipe Smokers and Cigarette Smokers**

Ausama Ahmed Fathallh, Maha Adel Mahmood

283-290

### **Incidence of Abruption and Placenta Previa in Pregnant with Previous Caesarian Section**

Baidaa Abdulkareem Alwan, Areej Sabah Abdulridha

291-297

### **Levels of Suicidal Ideations and Intentions among the Inmates in the Correctional Institutions in Baghdad City - Iraq**

Maan Hameed Ibrahim Al-Ameri

298-305

### **Relationship between Vitamin D AND IL6 in Convalescent Healthcare Workers with Covid-19 in Baquba Hospitals in Diyala Province**

Maysam Abbas, Luma T. Ahmed, Mohammed A. Alkarkhi

306-312

### **A Clinical Study of Parasitological Leishmaniasis in Al-Kut Province**

Bushra Qasim Dhumad Al Edhari

313-317

### **Determinant Factors affecting Quality of Life of Children with HIV/AIDS**

Candra Maulana, Irwanto, Dominicus Husada

318-326

### **Study of Psychosocial Risks in the Professional Environment of Health Care Workers in Morocco**

Chakhtoura Khalid, Chaib Yassine, Elanssari Anas, Aboussaleh Youssef, Ahmed O.T.Ahami

327-336

### **The Epistemological Aspects of Investigative Hypotheses**

David Petretei

337-342

### **CT Scan Finding Characteristics of Confirmed Covid-19 Patients Based on Clinical Symptom Onset Patterns**

Dewi Roziqo, Anita Widyoningroem, Prijambodo, Rosy Setiawati

343-351

### **Isolation and Diagnosis of the Bacteria Causing Corneal Ulceration Associated With Ocular Myiasis Infection**

Dhuha Mahdi Jabir, Esraa Fadhel Wathah

352-357

### **Study the Effect of Many Medications in Ophthalmomyiasis Treatment and the Possibility of Using these Medications Instead of Mechanical Removal**

Dhuha Mahdi Jabir, Ghada Basil Ali Alomashi

358-365

### **Physical and Psychological Stressor Exposure during Pregnancy Impacts the Expression of Synapsin and Neuronal Cells Number of MUS Musculus Offspring**

Diana Estu Rumahastuti, Hermanto Tri Joewono, Widjiati

366-372

### **Distribution of Virulence genes in Streptococcus pneumoniae Isolated from Different Baghdad Hospitals**

Dina Muthana Fahren, Basima Qasim Hasan Al-Saadi

373-380

### **Prevalence of Biofilm Genotype Pattern( algD -/pslD -/pelF -) with Multidrug-Resistant in Clinical Local Pseudomonas Aeruginosa Isolates**

Duraïd K. AlRawi, Huda M. Mahmood

381-391

### **The Effect of Long Storage of Whole Blood Components on the Level of 2,3 Diphosphoglycerate and Lactic Acid in the Blood Bank, Dr. Soetomo General Hospital, Surabaya, Indonesia**

Dwi Ajeng Roosanti, Betty Agustina Tambunan, Arifoel Hajat  
392-398

 Pdf

### **The Effect of Practical Exercises for the Technique of Ballistic Training to Develop Some Functional Capabilities of the Goalkeepers of the National Youth Football Team)**

Ehab Mohammed Farhan, Abdulwahhab Ghazi Hammoodi  
399-407

 Pdf

### **Analysis of Physico-Chemical and Bacteriological Parameters of Liquid Effluents from the Provincial Hospital Center in Sidi Kacem Morocco**

Elouakfaoui Aziz, Mahjoub Aouane, Rouani Abdeljabbar, Berrid nabyl  
408-418

 Pdf

### **Microbiological Study of Surfaces in the Hospital Environment Case of the Provincial Hospital of Sidi Kacem, Morocco**

Elouakfaoui Aziz, Mahjoub aouane, Rouani Abdeljabbar, Berrid Nabyl  
419-426

 Pdf

### **Predicting Pandemic Curve Distribution Using Statistical Models**

Eman Almuher, Mona Khandaqji, Manal Al-labadi, Anwar Alboustanji  
427-432

 Pdf

### **Steeping Tin Leaves (*Ficus carica*) Improves Sperm Quality of Male Mice (*Mus musculus*) Exposed to Lead Acetate**

Emi Kusumawardani, Budi Santoso, Widjiati, Hari Basuki Notobroto, Heru Santoso Wahito Nugroho  
433-440

 Pdf

### **Causes of Post Surgery Disputes between Plastic Reconstructive and Aesthetic Surgeons with Patients**

Endang Sri Sarastri, Liliana Tedjosaputro, M.C. Inge Hartini  
441-447

 Pdf

### **Evaluation of Biomarkers in Workers Exposed to Air Pollutants in Oil Refineries**

Esraa H. mohammed, Adel M. Rabee

448-454

 Pdf

### **Extraction and Purification of Resveratrol from Grape Waste**

Esraa Shanan Jabbar Al-Jubouri, Wedad Fadhil Abas, Azhar Jawad Al- Mousawi

455-461

 Pdf

### **A Comparative Study on the Diagnostic Value of Conventional Spin Echo Proton Density and Fast Spin Echo Proton Density Sequences of Magnetic Resonance Imaging in Diagnosis of Meniscal Tear**

Farhad Nalaini, Mahdi Mohammadi, Somayeh Mahdavian, Nazanin Farshchian

462-471

 Pdf

### **A Study of Chronic Disease Management in Indonesian Primary Health Care**

Febri Endra Budi Setyawan, Retno Lestari

472-479

 Pdf

### **Diabetic Ketoacidosis in Pregnancy: A Case Report**

Febrian Daru Setiawan, Hermina Novida

480-486

 Pdf

### **In Vitro Antibacterial Activity of Waste Palm Cooking Oil Against Staphylococcus Aureus**

Fiqih Faizara Ustadi, Agung Dwi Wahyu Widodo, Yuani Setiawati

487-493

 Pdf

### **The Implementation of Fraud Prevention on the National Health Insurance at Salewangan Maros Hospital, Indonesia: A Qualitative Study**

Fitri Indayani, Reza Aril Ahri, A. Rizki Amelia, Fatmah Afriyanti Gobel, Fairus Prihatin Idris

494-501

 Pdf

### **Comparative Determination of Chlorpromazine in Pharmaceutical Injectable Veterinary and Human Formulations by Spectrophotometric and High Performance Liquid Chromatographic Methods**

Fouad K. Mohammad, Lubna A. Kafi, Nabaa K. Al-Hayani, Fereal M. Mahdi, Ahmed J. Essa  
502-508

 Pdf

### **Protective Effect of Peppermint on the Toxicity Induced by Blue Green Algae in Poultry**

Gehan B. A.Youssef, Elzoghby R.R, Reda EL Kammar, Walaa S EIDin, Rania M Waheed  
509-519

 Pdf

### **Studying of Some Physiological Parameters in Patients with Inflammatory Bowel Disease ( IBD ) in Al-Anbar Province**

Thikra Majid Muhammed AL-Obaidy, Hasan Ali Mutar, Thaer Abdulqader Salih  
520-529

 Pdf

### **Coronavirus (COVID-19) and Online Studying Cas's Study Alasala University KAS Law School**

Hala Ali  
530-539

 Pdf

### **Human Papillomavirus DNA in a Sample of Iraqi Women with Positive Visual Inspection by Acetic Acid**

Halah Abdulwahhab Mohammed, Wasan Fawzi Sanad, Buthaina Ahmed Alwan  
540-548

 Pdf

### **Soluble Cluster of Differentiation 25 (sCD25) as a Predictor of Mortality of COVID-19 Patients in Surabaya, Indonesia**

Harida Zahraini, Betty Agustina Tambunan, Bambang Pujo Semedi  
549-556

 Pdf

### **Post Traumatic Tuberculous Tenosynovitis in a Patient that Manifests as Soft Tissue Tumor: A Case Report**

Haryo N. Yahya, Hadi, Usman  
557-562

 Pdf

### **COVID-19 Outbreak and Health literacy of Health Institutions: The Role of Strategic Theory**

Hashim Fawzi Alabadi, Ehsan Amori Almomen

563-569

Pdf

### **Qualitative Analysis of Cinnamomum burmannii Content using GCMS (Gas Chromatography Mass Spectrometry) Method**

Hayati, Jusak Nugraha, Bambang Purwanto, Hari Basuki Notobroto, Yoes Prijatna Dachlan, Hari Setiono, Idha Kusumawati

570-575

Pdf

### **Niclosamide as a Prospective Therapeutic in L-Arginine Induced Acute Pancreatitis in Rats; Concerning Autophagic p62/ NF-kB signaling pathway**

Heba A. Mahmoud, Rowida Raafat Ibrahim, Remon S Estfanous, Rasha Osama El-Esawy

576-588

Pdf

### **Relationship between Neutrophil-Lymphocyte Ratio and Disease Severity in COVID-19 Patients in Isolation Ward of Dr. Soetomo General Teaching Hospital**

Heri Krisnata Ginting, M. Vitanata Arfijanto, Tri Pudy Asmarawati, S. Ugroseno Yudho Bintoro

589-597

Pdf

### **Effect of Work Stress on the Productivity of Shift Workers in Production Department at Pt.x Makassar City**

Herlin Manga Lambo, Rafael Djajakusli, Masyitha Muis, Atjo Wahyu, Apik Indarty Moedjiono, Darmawansyah

598-603

Pdf

### **Cardiac Tamponade in a Patient With Hypothyroidism: A Case Report**

Hermifa Dwi Aninnaimah, Sony Wibisono

604-608

Pdf

### **Deep Vein Thrombosis and Diabetes Mellitus Type 2 as Complications of Psoriatic Arthritis: A Case Report**

Hersih Srinowati, Lita Diah Rahmawati

609-614

Pdf

### **The Effects of MISUKE For Underweight Children**

Hikmawati Mas'ud, Asmarudin Pakhri, Siti Nur Rochimiwati, Adriyani Adam

615-620

Pdf

### **Evaluation of the Effect of the Activity of Gum Arabic Aqueous Solution and Ozonated Water on the Chemical and Organoleptic Properties of Locally Produced Soft Cheese in Baghdad City**

Hind Suhail, Zina Saab Khudhir

621-627

Pdf

### **Diagnosis of Fungi Associated with Wounds from Lying Patients at Al-Hussein Teaching Hospital in Dhi Qar Governorate**

Iman Hadi Alfayyadh, Kadhim Mohan Manhil

628-631

Pdf

### **Investigation for Endemic Bacteria in the Intestine of Common Carp (Cyprinus Carpio L.) Feeding on Various Formulated Powders Fortified Diets**

Intisar Abduljabbar Shamkhi, Nuha Hameed Sadiq, Marwa Muzahim Mahdi Al-Doori, Afrah Mustafa Mohammed

632-638

Pdf

### **The Role of Vitamin D in Metabolic Syndrome in Polycystic Ovary Syndrome**

Intisar Younis Mohammed Ibrahim

639-646

Pdf

### **Malaria Infection Effect to Haemoglobin and Haematocrit in Pregnant Mus Musculus**

Istiana, Widya Nursantari, Edi Hartoyo, Meitria Syahadatina Noor

655-657

Pdf

### **Diagnostic Value of Mid Regional Poadrenomedullin as a Sepsis Biomarker in Pediatric Patients with Cancer-Related Chemotherapy**

Joko Susanto, Muhammad Robiul Fuadi, Mia Ratwita Andarsini

658-663

### **The Effect of Adiponectin Recombinant in Rattus Norvegicus with Polycystic Ovarium Syndrome Model on Anti-Müllerian Hormone Expression**

Joseph Chandra Relmasira, Jimmy Yanur Annas, Widjiati

664-669

### **Demographic Profile of Deaths Due to Drowning in and Around Vijayawada, Andhra Pradesh**

K. Ravimuni, K. Usha Rani

670-676

### **The Role of K and Ca Channels in Hydrogen Sulfide Induced Relaxation in Arteries Feeding Human Colorectal Cancer**

Kamaran. H. Mohammed, Omar A. M. Al-Habib, Sardar H. Arif

677-686

### **The Influence of Safety Management Practices on Safety Performance in Nurses of Emergency Installation on The Government Hospital of Surabaya**

Khaulah Syahidah, Noeroel Widajati, Nurhayati Saridewi

687-692

### **Immediate Postoperative Radiographic Assessment of Hip Arthroplasty**

Khitam Hamid Kamil, Safwan Saeed Mohammad, Mohammad Saeed Mohammad

693-699

### **The Effects of Chemicals Used For Suicide on Insect Succession, Diversity and Development: An Animal Model**

Kianoush Ghasvand, Niloofar Soltanian, Maryam Naghshzan, Simin Pouladian, Amin Hoseinpour, Aboozar Soltani

709-719

### **Hippocampal Volume and Entorhinal Cortex Thickness in Alzheimer's Disease**

Leon Agung Manurung, Widiana Ferriastuti, Bambang Soeprijanto, Hartono Yudi Sarastika

720-726

### **The Higher Level of Neutrophil – Lymphocyte Ratio (NLR) and Serum Syndecan-1 Based on Timeline (First, Sixth, and Twenty-Fourth Hour) in Sepsis-Induced Acute Kidney Injury**

Lila Tri Harjana, Eddy Rahardjo, Windhu Purnomo, Lilik Herawati, Nancy Margarita Rehatta

727-733

### **The Potential of A Balinese Traditional Medicine Kelor Leaves (*Moringa oleifera*) For Male Infertility Treatment : A Mini Review**

Luh Putu Widiastini, I. G. Agung Manik Karuniadi, I Nyoman Mangku Karmaya, I Gede Widhiantara

734-742

### **The Effect of Plyometric Training on Improving Values of Some Biokinematics Variables of High-Jump Shooting Skill with the Accuracy in Handball**

Maged Hassan Ali, Falah Abd Al-Hassan Yousef, Mahdi Lafta Rahi

743-750

### **The Impact of Local Attitudes on the Development of Health Tourism**

Mahboobeh Asadzadeh, Soudabeh Vatankhah, Aidin Aryankhesal

751-756

### **The Effect of Feeding Punicum Mombasa on The Production of Total Gas, Methane and Digestion Factor in Vitro**

Majid Hameed Rashid

757-762

### **Galactooligosaccharide (GOS) Fortified Formula Feeding in Premature Infants**

Martono Tri Utomo, Muhammad Reza, Risa Etika, Talitha Y. Aden, Iwan S. Handoko, Ruth A. Alexander

763-770

### **Prevalence of *Cryptosporidium* spp. among Patients with Diarrhea at Wasit Province/ Iraq**

May Naji Alkhanaq, Ghadeer Thamer

771-780

 Pdf

### **International Outsourcing of Quality Healthcare Through Tele-Medicine: Binding Arbitration Makes Tele-Medical Dream a Reality**

Meenakshi Kalra, Vikas Gupta

781-786

 Pdf

### **Psychosocial Impact and Protective Factor of COVID-19 Confirmed Patient During Isolation Enactment: A Systematic Review**

Mira Wahyu Kusumawati, Setyawati Soeharto, Heni Dwi Windarwati

787-799

 Pdf

### **Factors Related to Exclusive Breastfeeding in East Java – Indonesia**

Mohamad Yoto, Hario Megatsari, Azizah Andzar Ridwanah, Agung Dwi Laksono

800-806

 Pdf

### **Production and Purification of aflatoxin b1 from Local Isolate of Aspergillus flavus**

Mohammed Abdullah Zayer, Rafid Abdalwahd, Essam Fadel al-jumaili

807-814

 Pdf

### **Comparative Anatomical Study of Kidney in adult Male Squirrel (*Sciurus anomalus*) and Mice (*Mus musculus*)**

Mohammed H. Abed, Shakir M. Mirhish

815-824

 Pdf

### **Review of the Professional Ethics of Doctors as Chemical Castration Sanctions in Indonesia**

Muhammad Bagus Adi Wicaksono, Itok Dwi Kurniawan

825-830

 Pdf

### **Height-for-age in Children under 5 Years Old with Down Syndrome and Hypothyroidism**

Muhammad Faizi, Nur Rochmah, Yuni Hisbiyah, Anang Endaryanto, Soetjipto

831-837

 Pdf

### **Determinants of Quality of Life Air Traffic Controller in AirNav Surabaya**

Muhammad Fandi Ahmad, Lalu Muhammad Saleh, Yahya Thamrin, Syamsiar S. Russeng, Saifuddin Sirajuddin, Agus Bintara Birawida

838-845

Pdf

### **Characteristics and Outcome of Hospitalized Children with COVID-19: A Single Center Experience**

Nabeeha N. Akram

846-857

Pdf

### **Mung Bean Sprouts (*Vigna radiata*) Ethanol Extract on Alanine Aminotransferase (ALT) Activity and Malondialdehyde (MDA) Levels in Toluene-Induced Rats**

Putu Bayu Agus S.Si, Siti Khaerunnisa M.Si, Lina Lukitasari, M.Si

858-864

Pdf

### **Workers Knowledge about First Aids of Emergency Accidents at Industrial Sector of Al-Najaf City in Iraq**

# Height-for-age in Children under 5 Years Old with Down Syndrome and Hypothyroidism

Muhammad Faizi<sup>1,2</sup>, Nur Rochmah<sup>1,2</sup>, Yuni Hisbiyah<sup>1,2</sup>, Anang Endaryanto<sup>1,2</sup>, Soetjipto<sup>1,3</sup>

<sup>1</sup>Doctoral Program of Medical Science, Faculty of Medicine, Universitas Airlangga, Surabaya, East Java, Indonesia; <sup>2</sup> Researcher, Department of Child Health, Dr. Soetomo General Hospital, Faculty of Medicine Universitas Airlangga, Surabaya, East Java, Indonesia; <sup>3</sup>Professor, Department of Medical Biochemistry, Faculty of Medicine, Universitas Airlangga, Surabaya, East Java, Indonesia

## Abstract

**Background:** Children with Down syndrome tend to have accompanying comorbidities, such as hypothyroidism, and late detection of this ailment leads to reduced growth of the child. This study aimed to assess the growth patterns in children with Down Syndrome and hypothyroidism at diagnosis.

**Methods:** This cross-sectional study was conducted from September to December 2020 with 56 subjects at the Pediatric Endocrine Outpatient Clinic of Dr. Soetomo Hospital. Diagnosis of Down Syndrome was confirmed by karyotyping, while the weights and heights were assessed using a standardized curve for children with Down Syndrome and then calculated using Peditools. Fifty-six children with Down Syndrome and hypothyroidism were included, comprising 32 boys and 24 girls (mean age,  $37.75 \pm 34.26$  months). Majority of the subjects had normal weight, height, and Body Mass Index (36/56 [mean z-score,  $-1.62 \pm 2.36$ ], 33/56 [mean height-z-score,  $-0.43 \pm 2.74$ ], and 30/56 [mean z-score,  $-2.00 \pm 2.06$ ], respectively). Furthermore, the mean onset of diagnosis was  $17.07 \pm 32.23$  months, where 23 out of the 56 children had short stature and had gotten diagnosed at over 12 months of age.

**Conclusion:** From the results obtained, hypothyroidism can be said to be associated with reduced growth in children with DS.

**Key Words:** down syndrome, growth, short stature, hypothyroidism

## Introduction

Short stature is one of the most recognized features in children with Down syndrome (DS), and in a healthy population of children with this condition, 35.7% were found to have short stature<sup>1-3</sup>.

Consequently, several adapted growth charts are used to assess the growth of children with DS<sup>4-7</sup>. The prevalence of short stature is increased by 46.2% in children with DS and hypothyroidism compared to those without hypothyroidism<sup>8</sup>. Children with DS experience late growth until 12–15 years, when they are approximately 20 cm shorter than children at the same age but without the condition<sup>9</sup>. Short stature is one of many complications caused by hypothyroidism, which is, as a result, often suspected if it occurs in adolescence. It should be suspected in children with short stature, as a study conducted in India showed

### Corresponding author:

**Muhammad Faizi**

Mayjend Prof. Dr. Moestopo No. 6-8, Surabaya, East Java, Indonesia, 60286

Tel +628123402094,

mail : muhammad.faizi@fk.unair.ac.id

that almost 50% of these had hypothyroidism<sup>10</sup>.

Hypothyroidism is a common comorbidity accompanying DS, and previous studies show that the incidence in people with this condition is 12 to 22 times that of individuals without<sup>11</sup>. Neonates suspected of having DS often demonstrate an increase in plasma thyroid-stimulating hormone (TSH), and hypothyroidism is found in 4%–8% of this population<sup>12</sup>. Thyroid hormone is associated with cognitive development in the central nervous system during childhood, and any abnormality in its function may interrupt brain development, and consequently, general growth and development<sup>10,11</sup>. Consequently, hypothyroidism is believed to impair the growth of children with DS and increase their chances of having short stature. Although the detection of congenital hypothyroidism should be performed for every baby born<sup>13</sup>, it is different in babies with DS. A study stated that autoimmune hypothyroidism occurs at five (5) months, and many were diagnosed at eight (8) years<sup>14</sup>. Hence, detecting congenital hypothyroidism in babies with DS can happen after a few years<sup>15</sup>.

Research on DS with hypothyroidism has not been widely studied in Indonesia, especially regarding the growth of children, although growth studies have been performed on subjects with Turner syndrome<sup>16</sup>. Therefore, this study aims to assess how hypothyroidism impacts the growth pattern of children with DS.

A greater understanding of the growth pattern of children with DS and hypothyroidism could lead to earlier diagnosis and intervention. Early intervention has proven to offer good results in preventing and treating growth disorders in patients with these conditions<sup>17</sup>. Indeed, current guidelines suggest evaluating thyroid function in DS just after birth and every six (6) months afterward to detect problems earlier<sup>18</sup>. Moreover, the high incidence of short stature in patients with hypothyroidism has been shown to improve with earlier diagnosis and appropriate therapy<sup>17</sup>.

## Materials and Methods

This study used a cross-sectional design and was performed from September to December 2020. The data were obtained from the patients' medical records, and the subjects were interviewed to collect hypothyroid history and nutritional status. This process was performed during their visit to the Pediatric Endocrine Outpatient Clinic of Dr. Soetomo Hospital.

### Sample

This study involved children diagnosed with both DS and hypothyroidism and registered at the Pediatric Endocrine Outpatient Clinic of Dr. Soetomo Hospital. The inclusion criteria were patients aged 1–5 years, diagnosed with both conditions, while critically ill patients were excluded. Fifty-six (56) patients between 1 and 5 years of age (32 boys and 24 girls) were the subjects in this study. The weight-for-age, height-for-age, body mass index (BMI)-for-age, and BMI were presented.

### Down syndrome

The DS diagnosis was confirmed physically by referring to the Fried *et al.*<sup>19</sup> criteria, which evaluated the abundant neck skin, downturned mouth corners, general hypotonia, and flat face. Other indications are dysplastic ear, epicanthic eye-fold, the gap between the first and second toes, and protruding tongue. This diagnosis was confirmed by a karyotyping test.

### Instrument / Nutritional status

The nutritional status of children with DS was classified by Zemel *et al.*<sup>2</sup> after recalculation of the standard growth curve of children with the condition. Using the Peditools.org website, the z-score of each growth parameter was calculated. The instrument, [peditools.org/downinfant/](http://peditools.org/downinfant/), was used for children aged 0–2 years, while [peditools.org/downpedi/](http://peditools.org/downpedi/) was used for those older than 2 years. Then, the height-for-age was classified either as short stature or normal based on the DS curve and z-score classification by Peditools.

According to WHO child growth standards, 2006, a z-score of -3.00 is severely stunted, -3.00 to -2.01 is moderately stunted, while -2.00 to 1.01 is mild.

**Evaluation of data**

A descriptive test was used to analyze the data using SPSS 17.0 software (IBM SPSS), while the mean and standard deviation of each element was used for the baseline and clinical characteristics. The Kolmogorov–Smirnov test was also used to evaluate the normality of each dataset.

**Ethical permission**

This study received ethical approval from the Ethics Committee overseeing health research at Dr. Soetomo Hospital (Ref. No.: 1960/KEKP/IV/2020).

**Results and Discussion**

This cross-sectional study included 56 children with DS and hypothyroidism, comprising 32 boys and 24 girls, at 57.1% and 42.9%, respectively, with an average age of  $37.75 \pm 34.26$  months old. The baseline characteristics and history of these patients are presented in Tables 1 and 2. Most of the subjects had normal weights, heights, and BMI (36/56 [mean z-score,  $-1.62 \pm 2.36$ ], 33/56 [mean height-z-score,  $-0.43 \pm 2.74$ ], and 30/56 [mean z-score,  $-2.00 \pm 2.06$ ], respectively). Based on the nutritional status, 20 of the 56 subjects, at 35.7%, were revealed to be underweight, while 23, at 41.1%, had short statures. The mean duration of hypothyroid illness was  $22.97 \pm 23.24$  months, while the mean onset age was  $21.65 \pm 39.76$  months. Finally, the mean z-score of all criteria was within the normal limit of  $-2 < z < 2$ .

**Table I. Frequency of subject characteristics**

	Characteristic	N (%)
	Sex	
-	Boy	32 (57.1)
-	Girl	24 (42.9)
	Weight-for-age	
-	Severely underweight	12 (21.4)
-	Underweight	8 (14.3)
-	Normal	36 (64.3)
	Height-for-age	
-	Short stature	23 (41.1)
-	Normal	33 (58.9)
	BMI-for-age	
-	Severely wasted	11 (19.6)
-	Wasted	15 (26.8)
-	Normal	30 (53.6)

**Table II. Baseline characteristics of subjects**

Characteristic	Mean (SD)	Minimum	Maximum	N
Age (months)	47.75 (34.23)	2	129	56
Illness duration (months)	23.25 (23.63)	0	90	56
Onset age (months)	17.07 (32.23)	0	163	56
Weight-for-age z-score	-1.62 (2.36)	-10.13	1.66	56
Height-for-age z-score	-0.43 (2.74)	-5.66	4.88	56
BMI-for-age z-score	-2.00 (2.06)	-9.68	0.80	56

Based on the results, 23, i.e., 41.1% out of the 56 children with DS and hypothyroidism, had short statures, while the remaining 33, at 58.9%, were classified as normal. This finding is consistent with the report by Nam *et al.*, which concluded that infants with DS are likely to have short statures, especially when accompanied by comorbidities, such as a history of infectious or non-infectious diseases<sup>20</sup>. Adequate and complete nutrient intake is also a strong predictor of nutritional status, including height-for-age in infants<sup>21</sup>. Furthermore, a study by the Leung brothers had similar findings to this investigation that hypothyroidism can stunt growth and cause short stature in the absence of immediate therapy to improve the growth gap<sup>22</sup>. Growth failure in the thyroid may be related to the need for cartilage maturation to T3<sup>23</sup>. Histologically, individuals with chronic hypothyroidism will demonstrate a delay in bone maturation and resting on the epiphysial plate<sup>24</sup>.

As seen in Table 2, the mean age at diagnosis of hypothyroidism was 17.07 months, while some subjects were diagnosed as late as 20–23 months old. This is a cause for concern, as delayed diagnosis causes physical and intellectual disorders<sup>13,25</sup>, and substitution therapy can improve hypothyroidism symptoms<sup>8</sup>. A study conducted in Turkey reported the average age of diagnosis to be 49 months<sup>26</sup>. Early diagnosis is crucial to prevent sequelae, as although a

delay in diagnosis can lead to poor growth, it can be reversed<sup>8</sup>, unlike intellectual delays<sup>27</sup>.

Zemel *et al.* conducted an epidemiological study on nutritional status and DS in the United States<sup>2</sup>. It showed that the mean z-scores of height-for-age ( $-1.7 \pm 1.2$ ), weight-for-age ( $-0.8 \pm 1.2$ ), Head Circumference (HC)-for-age ( $-1.6 \pm 1.0$ ), and BMI-for-age ( $0.9 \pm 1.0$ ) were accompanied by a BMI value of  $21.1 \pm 5.8$ . These values are similar to our study, although only individuals with DS and hypothyroidism were included. However, several studies reported no decrease in the z-score of the nutritional status as a result of hypothyroidism<sup>28</sup>. The hypothyroid condition is a hypometabolic state in which the basal metabolic rate (BMR) decreases<sup>29,30</sup>, hence, some individuals with hypothyroidism experience excess nutrients rather than a lack<sup>31</sup>. Also, the BMR in healthy individuals and those with DS devoid of other comorbidities are similar, meaning that DS does not affect BMR<sup>32</sup>.

Concerning the nutritional status of the patients in this study, 35.7% were underweight and severely underweight, compared with the research by Al-Fahham *et al.*, where the prevalence in the DS group was only 14.3%<sup>3</sup>. However, this previous research also found congenital heart disease (CHD) in DS patients, a common comorbidity in this condition, similar to

this study, where 25% of the sample also had CHD<sup>15</sup>. Conversely, Al-Fahham found that the incidence of underweight subjects in the CHD group at 34.2%, which was greater than that observed in this study. Hypothyroidism is a chronic disease that can affect an individual's nutritional status, especially during growth and development<sup>8</sup>. A study from Al-Aaraj *et al.* showed an improvement in the nutritional status of individuals with DS undergoing hypothyroidism therapy at height-for-age and BMI-for-age<sup>8</sup>.

The main limitations of the current study were that it was single-centered and included only a small proportion of children with DS and hypothyroidism that had short stature, meaning more research of similar samples is required to confirm this relationship. Also, it did not compare a population of children with DS without hypothyroidism. This should be considered in prospective studies, as it would assist in drawing conclusions about the association between both conditions. Also, it will be important in future studies to perform early screening of hypothyroidism when examining the incidence of short stature in a similar population of children. If possible, the Indonesian multi-center epidemiological research will be performed to obtain more representative results on these conditions.

### Conclusion and Acknowledgement

Hypothyroidism, as a comorbidity, has been shown to be associated with reduced growth of subjects with DS. Although late diagnosis is common, earlier detection could prevent these issues before they worsen, making the evaluation of the thyroid hormone status of patients born with suspected DS important. Finally, adolescents with short stature should undergo testing for hypothyroidism, and education should be provided to the community to create awareness of these associations and their consequences if left undiagnosed.

We thank the Director of Dr. Soetomo General Hospital who has given the permission to conduct this research.
