You will be unable to make your revisions on the originally submitted version of the manuscript. Instead, revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the track changes mode in MS Word or by using bold or colored text. Once the revised manuscript is prepared, you can upload it and submit it through your Author Center. When submitting your revised manuscript, you will be able to respond to the comments made by the reviewer(s) in the space provided. You can use this space to document any changes you make to the original manuscript. In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

IMPORTANT: Your original files are available to you when you upload your revised manuscript. Please delete any redundant files before completing the submission.

Because we are trying to facilitate timely publication of manuscripts submitted to the EurAsian Journal of BioSciences, your revised manuscript should be submitted by 23-Jul-2019. If it is not possible for you to submit your revision by this date, we may have to consider your paper as a new submission. Once again, thank you for submitting your manuscript to the EurAsian Journal of BioSciences and I look forward to receiving your revision.

Sincerely,
Yunus Dogan

abstract :

You said that "Meniran plant contains antifungal compounds can be used as an alternative mouthwash for denture users.", why you choose meniran?.

Introduction

No previous related studies have been reported.

This study determined that meniran extract no toxic and can reduce the excess amount of candida albicans

Methods are clearly stated.

There are significant difference between cell groups and treatment group.

Discussion is quite enough. Most sentences have references. In addition, the results no need to be further discussed .

Thank you for submitting the above manuscript to EurAsian Journal of BioSciences. This article is interesting.
