Dear Dr. Hakim,

Thank you for sending your manuscript The Use of Tissue Sealant in Reducing Urethrocutaneous Fistula Event Following Hypospadias Repair: A Systematic Review and Meta-analysis for consideration to Annals of Medicine and Surgery. Please accept this message as confirmation of your submission. When should I expect to receive the Editor's decision?

For Annals of Medicine and Surgery, the average editorial time (in weeks) from submission to first decision is: 5.07 and from submission to final decision is: 10.13.

What happens next?

Here are the steps that you can expect as your manuscript progresses through the editorial process in the Editorial Manager (EM).

1. First, your manuscript will be assigned to an Editor and you will be sent a unique reference number that you can use to track it throughout the process. During this stage, the status in EM will be "With Editor".

2. If your manuscript matches the scope and satisfies the criteria of Annals of Medicine and Surgery, the Editor will identify and contact reviewers who are acknowledged experts in the field. Since peer-review is a voluntary service, it can take some time but please be assured that the Editor will regularly remind reviewers if they do not reply in a timely manner. During this stage, the status will appear as "Under Review".

Once the Editor has received the minimum number of expert reviews, the status will change to "Required Reviews Complete".

3. It is also possible that the Editor may decide that your manuscript does not meet the journal criteria or scope and that it should not be considered further. In this case, the Editor will immediately notify you that the manuscript has been rejected and may recommend a more suitable journal.

For a more detailed description of the editorial process, please see Paper Lifecycle from Submission to Publication: http://help.elsevier.com/app/answers/detail/a_id/160/p/8045/

How can I track the progress of my submission?

You can track the status of your submission at any time at <http://ees.elsevier.com/AMSU>

Once there, simply:

1. Enter your username: Your username is: lukmanhakim

If you need to retrieve password details, please go to: http://ees.elsevier.com/AMSU/automail_query.asp

2. Click on [Author Login]. This will take you to the Author Main Menu

3. Click on [Submissions Being Processed]

Many thanks again for your interest in Annals of Medicine and Surgery.

Kind regards,

Dr. Riaz Agha
Editor-in-Chief
Annals of Medicine and Surgery

Title: The Use of Tissue Sealant in Reducing Urethrocutaneous Fistula Event Following Hypospadias Repair: A Systematic Review and Meta-analysis
Annals of Medicine and Surgery

Dear Dr. Hakim,

The reviewers have commented on your above paper. They indicated that it is not acceptable for publication in its present form.

However, if you feel that you can suitably address the Managing Editor (if applicable) and Reviewer(s) comments (included below), I invite you to revise and resubmit your manuscript.

Please carefully address the issues raised in the comments.

If you are submitting a revised manuscript, please also:

a) outline each change made (point by point) as raised in the reviewer comments

AND/OR

b) provide a suitable rebuttal to each reviewer comment not addressed

c) Supply a revised manuscript with track changes - Your revised manuscript with track changes added or your revisions highlighted in bold/red.

d) Supply a revised manuscript un-tracked - A clean unmarked copy of your revised manuscript.

To submit your revision, please do the following:

1. Go to: <https://www.editorialmanager.com/amsu/>
2. Enter your login details
3. Click [Author Login]
This takes you to the Author Main Menu.
4. Click [Submissions Needing Revision]

I look forward to receiving your revised manuscript.

Yours sincerely,

Dr Riaz Agha
Editor-in-Chief
Annals of Medicine and Surgery

Reviewer(s) comments:

Editor

1) Ensure your work is fully compliant with the PRISMA 2020 statement, which should be cited within the methods section of your article:

<https://www.sciencedirect.com/science/article/pii/S1743919121000406?via%3Dihub>

and please submit a completed PRISMA checklist stating the page numbers where you completed each item (your work will be returned if this is not done).

2) Please also ensure your methods section states that the work has been reported in line with the PRISMA criteria and cite the paper above as follows:

M.J. Page, J.E. McKenzie, P.M. Bossuyt, I. Boutron, T.C. Hoffmann, C.D. Mulrow, et al. The PRISMA 2020 statement: an updated guideline for reporting systematic reviews. *International Journal of Surgery* (2021):88;105906.

3) Please ensure you self-evaluate the quality of your systematic review using AMSTAR 2 criteria and upload a completed AMSTAR 2 checklist: https://amstar.ca/Amstar_Checklist.php or <https://amstar.ca/docs/AMSTAR-2.pdf>.

Please also state the level of compliance with AMSTAR 2 in the methods section of your paper and cite the AMSTAR 2 paper.

4) Please ensure you submit your work with a Research Registry UIN: www.researchregistry.com – it can't progress without being registered – even if its retrospective research. Please ensure you also state your registration unique identifying number (UIN) in your methods section and reference it including a hyperlink to it.

5) Please go through your paper and proofread it to correct spelling, grammar and syntax errors. If you need our author support services, you can access them here: <https://www.ijspg.com/services/author-support>

6). Please add the following statement above references:

Provenance and peer review

Not commissioned, externally peer-reviewed

Reviewer #1: I SUGGEST TO THE AUTHORS TO RULE OUT THE ROLE OF BLADDER CATHETER (PUT IN SIDE/NOT PUT IN SIDE, PUT IN SIDE FOR ... TIME) IN THE HEALING PROCESS OF THE PENIS WOUND AND IN THE INCIDENCE OF FISTULA.

Please note that the editorial process varies considerably from journal to journal. To view the submission-to-publication lifecycle, click here: http://help.elsevier.com/app/answers/detail/p/7923/a_id/160

Title: The Use of Tissue Sealant in Reducing Urethrocutaneous Fistula Event Following Hypospadias Repair: A Systematic Review and Meta-analysis
Annals of Medicine and Surgery

Dear Dr. Hakim,

I am pleased to inform you that your paper "The Use of Tissue Sealant in Reducing Urethrocutaneous Fistula Event Following Hypospadias Repair: A Systematic Review and Meta-analysis" has been accepted for publication in Annals of Medicine and Surgery.

This journal is fully open access; all articles will be immediately and permanently free for everyone to read and download. To provide Open Access, this journal has a publication fee which needs to be met by the authors or their research funders.

In the next few days, you will be receiving information via email to allow you to choose one of the CC license options, providing funding information and a link to our payment system.

Learn about publishing Open Access in this journal at <http://www.elsevier.com/journals/Annals-of-Medicine-and-Surgery/2049-0801/open-access-journal>.

Your manuscript will be published online in raw form 4 days from this acceptance.

Below are comments from the editor and reviewers.

We appreciate and value your contribution to Annals of Medicine and Surgery. We regularly invite authors of recently published manuscript to participate in the peer review process. If you were not already part of the journal's reviewer pool, you have now been added to it. We look forward to your continued participation in our journal, and we hope you will consider us again for future submissions.

Yours sincerely,

Dr Riaz Agha
