This journal uses the Elsevier Article Transfer Service. This means that if an editor feels your manuscript is more suitable for an alternative journal, then you might be asked to consider transferring the manuscript to such a journal. The recommendation might be provided by a Journal Editor, a dedicated Scientific Managing Editor, a tool assisted recommendation, or a combination. For more details see the journal guide for authors.

Manuscript Title: Difference of fusion outcomes of bone morphogenetics proteins-7 and bone autograft in posterolateral lumbar fusion : a systematic review

Journal: Interdisciplinary Neurosurgery: Advanced Techniques and Case Management

Dear Eko Subagio,

Your submitted manuscript is currently under review. You can track the status of your submission in Editorial Manager, or track the review status in more detail using Track your submission here:

<https://track.authorhub.elsevier.com?uid=c5335632-7b32-439a-9b6b-90a19ab1d605>

This page will remain active until the peer review process for your submission is completed. You can visit the page whenever you like to check the progress of your submission. The page does not require a login, so you can also share the link with your co-authors.

If you are a WeChat user, then you can also receive status updates via WeChat. To do this please click the following link; you will be taken to Elsevier China's website where further instructions will guide you on how to give permission to have your submission's details made visible in WeChat. Note that by clicking the link no submission data is transferred to the WeChat platform. If you have any questions about using Track your submission with WeChat please visit 在线咨询 [https://cn.service.elsevier.com/app/chat/chat\\_launch/supporthub/publishing/session/](https://cn.service.elsevier.com/app/chat/chat_launch/supporthub/publishing/session/) - Journal Article Publishing 支持中心

Manuscript Number: INAT-D-23-00039

Difference of fusion outcomes of bone morphogenetics proteins-7 and bone autograft in posterolateral lumbar fusion : a systematic review

Dear Dr.dr Subagio,

Thank you for submitting your manuscript to Interdisciplinary Neurosurgery: Advanced Techniques and Case Management.

I am pleased to inform you that your manuscript has been accepted for publication.

My comments, and any reviewer comments, are below.

Your accepted manuscript will now be transferred to our production department. We will create a proof which you will be asked to check, and you will also be asked to complete a number of online forms required for publication. If we need additional information from you during the production process, we will contact you directly.

We appreciate you submitting your manuscript to Interdisciplinary Neurosurgery: Advanced Techniques and Case Management and hope you will consider us again for future submissions.

We encourage authors of original research papers to share the research objects – including raw data, methods, protocols, software, hardware and other outputs – associated with their paper. More information on how our open access Research Elements journals can help you do this is available at [https://www.elsevier.com/authors/tools-and-resources/research-elements-journals?dgcid=ec\\_em\\_research\\_elements\\_email](https://www.elsevier.com/authors/tools-and-resources/research-elements-journals?dgcid=ec_em_research_elements_email).

Kind regards,  
Petra Klinge  
Editor-in-Chief

Interdisciplinary Neurosurgery: Advanced Techniques and Case Management

Editor and Reviewer comments:

Dear Dr. Subagio,

I had not been able to accomplish more reviewer input, however, this well respected reviewer of INAT found your article very valuable and I trust this reviewer's opinion. I don't want to further delay your manuscript. I was also looking at your manuscript and found it well written, educational and instructive. As such, we will accept it as it is.

Sincerely,

Petra Klinge  
Editor-in-Chief, INAT

Reviewer #1: Thank you for this solid manuscript that is a nice addition to the literature
