Dear Dr. Utariani,

Indian Journal of Anaesthesia has received your manuscript entitled "VALIDITY OF URINE NEUTROPHIL GELATINASE-ASSOCIATED LIPOCALIN (NGAL) AS A BIOMARKER OF ACUTE KIDNEY INJURY IN PEDIATRIC SEPSIS PATIENTS" for consideration for publication. The reference number for this manuscript is "IJA_823_20". Kindly quote this in correspondence related to this manuscript.

The manuscript is being reviewed for possible publication with the understanding that it is being submitted to one journal at a time and has not been published, simultaneously submitted, or already accepted for publication elsewhere either as a whole or in part. Online submission of this article implies that the corresponding author has the written consent from all the contributors to act as corresponding author.

You are requested to send the signed copyright/contributor form within two weeks. The form can be uploaded as a scanned image from your area. The decision about the manuscript will be conveyed only on receipt of the form. High resolution images are required at the time of acceptance, you should be notified separately for the same, if images uploaded by you are not of printable quality.

The Editors will review the submitted manuscript initially. If found suitable, it will follow a double-blinded peer review. We aim to finish this review process within a short time frame, at the end of which a decision on the suitability or otherwise of the manuscript will be conveyed to you via this system. During this process you are free to check the progress of the manuscript through various phases from our online manuscript processing site <https://www.journalonweb.com/ija>.

We thank you for submitting your valuable work to the Indian Journal of Anaesthesia.

Yours sincerely,
Editor

Dear IJA Editorial Board,

Thank you for the feedback. I've read and revised the manuscript according to the author's instructions. I've also attached the ethical committee approval and the research permission form from the local authority. but unfortunately, this research hasn't been registered to the clinical registry yet.

i'm looking forward to the good news.

regards,
Arie Utariani, MD
