Comments For Author:

So I see in order to raise the level of the research paper

The research needs many modifications that the researcher must modify, the most important of which are:

- In abstract should not contain abbreviation
- Number of patients and time to do study should be add to method in abstract.
- The word (discovered) in the conclusion of abstract change to (found)
- The last line in the 5th paragraph of introduction need reference
- Number of patients should be add to method

The results is not enough

Recommendation: See Comments

Reviewer F:

1. Why there is no data about risk factors in the results?
2. What do you mean about ODHA?
3. It is better, if the author could explain in discuss why there are few results in this age group.

reviewer F.

1. Why there is no data about risk factors in the results?
 2. What do you mean about ODHA?
 3. It is better, if the author could explain in discuss why there are few results in this age group.
 4. It is better, if the author describes the results of the TB drug sensitivity test, and shows data about the results of therapy, especially in the intensive phase of 2 months, thus making the manuscript more robust.
- Recommendation: Resubmit for Review

Dear Dwi Wahyu Indriati:

Your submission "The Occurrence of Tuberculosis infection among Newly HIV Diagnosed Patient in Banyuwangi, Indonesia: HIV-TB coinfection" to Open Access **Macedonian Journal** of Medical Sciences now needs to be proofread by following these steps.

1. Click on the Submission URL below.
2. Log into the **journal** and view PROOFING INSTRUCTIONS
3. Click on VIEW PROOF in Layout and proof the galley in the one or more formats used.
4. Enter corrections (typographical and format) in Proofreading Corrections using "[Mark up text with edits](#)" or "[Use annotation and drawing markup tools to add comments in PDFs](#)".
5. Save corrected Galley Proof with the addition "Corrected" to the file name (i.e., OAMJMS-9A-4528.pdf should be saved as OAMJMS-9A-4528-Corrected.pdf).
6. Click on the link "Add Discussion", define Subject "Corrected Galley Proof", write text in the field Message, Upload File in the field Attached Files.
7. Complete and sign **Copyright Form**, upload in the field Attached Files, and complete the message with clicking "OK".
