Dear Nur Aisiyah Widjaja

Ithenticate shows a similarity index of 35% which is extremely high. I have revised the article, deleting some portions and re-wording others so as to reduce the similarity index to more acceptable levels. I will be giving this revised version to the reviewers at the next Editorial Meeting on 28 February. The revised version and ithenticate are attached.

Dear Dr Lucas

Thank you very much for your assistance. I will not make any changes. Regarding with publication.. could I have letter of acceptance (LOA). LOA is needed for my doctoral programme qualification.
Thank you again...

Best Regards

Dear Nur Widjaja (corresponding author)

As indicated in the web site of the Sri Lanka Journal of Child Health, it is now necessary for us to have your internationally recognised ORCID ID (ORCID Identification Number) to be included in the manuscript. This number has a format such as **0000-0001-7789-8793**, which is the ORCID ID of Dr. B.J.C. Perera, the other Joint Editor.

Please be kind enough to send us the ORCID IDs of each of the authors.to be inserted into the metadata of the article in the journal web site. In case you do not have this number yet, please go to the website of ORCID (<https://orcid.org/register>) and register. This registration is free and would take only a couple of minutes.

The article will not be accepted for publication unless the ORCID IDs of all the authors are received.

Regards
Dr. G N Lucas
Joint Editor SLJCH
