Authors' contributions

We follow International Committee of Medical Journal Editors (ICMJE) recommendation of authorship, which is based on the following 4 criteria:

1. Substantial contributions to the conception or design of the work; or the acquisition, analysis, or interpretation of data for the work; AND
2. Drafting the work or revising it critically for important intellectual content; AND
3. Final approval of the version to be published; AND
4. Agreement to be accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

All those designated as authors should meet all four criteria for authorship, and all who meet the four criteria should be identified as authors. Those who do not meet all four criteria should be acknowledged. Please insert here the contribution each author made to the manuscript—e.g., literature search, figures, study design, data collection, data analysis, data interpretation, writing etc. If all authors contributed equally, please state this. The information provided here must match the contributors' statement in the manuscript.

1. Minh Thiet Vu: Conceptualization, methodology, resources, formal analysis, writing—original draft preparation, writing—review and editing, supervision, project administration, funding acquisition.
2. Almando Gerald: Conceptualization, methodology, investigation, data curation, writing—review and editing, supervision, funding acquisition.

Conflicts of interest

Please insert here: 1. authors' conflicts of interest; 2. sources of support for the work, including sponsor names along with explanations of the role of those sources if any in study design; collection, analysis, and interpretation of data; writing of the report; 3. the decision to submit the report for publication; or a statement declaring that the supporting source had no such involvement, etc.

1. Authors' conflicts of interest: We declare that we have no known competing financial interests or personal relationships that could have appeared to influence the work. We also declare that there is no conflict of interest in the submission of the manuscript and the manuscript is approved by all authors for publication.
2. Sources of support for the work: This research was funded by "Pendanaan Penelitian Skema Penelitian Dasar, No. 488/UN3.15/PT/2021 from Direktorat Riset dan Pengabdian Masyarakat – Direktorat Jenderal Penguatan Riset dan Pengembangan – Kementerian Riset, Teknologi, dan Pendidikan Tinggi Republik Indonesia" (Basic Research Grant No. 488/UN3.15/PT/2021, Ministry of Research, Technology, and Higher Education of the Republic of Indonesia).
3. The decision to submit the report for publication: The funding body does not have any involvement in the collection, analysis, interpretation of data, and writing of the report related to this publication. The funding body also does not have any involvement in the decision to submit the report for publication.

I agree with: the plan to submit/publish to MDPI Biology; the contents of the manuscript; to being listed as an author; and to the conflicts of interest statement as summarised. I have had access to all the data in the study (for original research articles) and accept responsibility for its validity.
