## ACKNOWLEDGEMENT

This thesis was made as the fulfillment of the requirements for Sarjana degree of the English Department, Faculty of Social and Political Sciences in Airlangga University; that is the final task I have to do to accomplish my study in English Department.

Through many considerations, I entitled my thesis as American and European Socio-Cultural Distinctiveness Portrayed in Henry James *Daisy Miller*. Accordingly, it's about the encounter of American and European typical cultural characteristics that would possibly provokes social conflicts between each agents. It becomes more interesting when we realize that the social values described in the story are something universal. Besides, the message conveyed by Henry James is significantly worthy in this globalization era. Especially for the ones who begin to neglect the old traditional decorum believed by other people.

However, I realize that this thesis is still far from perfection. Therefore any constructive advice and correction would be expected to make this thesis better.

At the end, I would like to express my most gratitude to Allah SWT, for I believe nothing I can do without His bless. I also wish to express my thanks to the following without whose help I would never have been able to

complete my thesis :
