Christ prepares himself before performing the mission God deligates to Him. And His prophets also learn before they are deligated through the whole world. So I want to learn to prepare my future.

ACKNOWLEDGEMENTS

It was long to wait the finalization of this paper. Therefore, it was a great release when I realized its completion. If the following people had not supported my attempts on it, this paper would have never been available the way it is completed right now.

First of all I would like to deliver my gratitude to our beloved God above, who blesses me brain and heart to perform all responsibilities in life. Praise to 'The Father, Son and Holy Spirit' now and forever. I also express my gratitude to The Holy Mary whose prayers is as rain showers in a long dry season, for the whole period of my study.

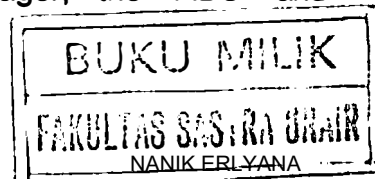

I would like to express my special thanks to Dra. Sudijah MA, my thesis advisor, inexhaustibly guiding me to catch a bit failure before finally ending this final task as a requisite to gain my bachelor degree. My great thank is also expressed to Drs. Hariawan Adji ST., Mkes, my previous thesis advisor who helpfully provides me a chance to do this thesis during my one year period working in Jakarta. He is really the most patient lecturer. Besides, I would like to give my deep thanks and honor for Mr Jurianto for all his constructive criticism and Mr Luita Aribowo for always assisting when I was doing my Thesis Writing Design. He is the best supporter and I feel so sorry for not continuing the brilliant topic he suggested to be the thesis.

I am also indebted to all lecturers of English Department especially to Drs. Husein Shahab, Dra Anna Dewanti and Arnos Kwary SS, who have guided me during my wonderful academic years.

My special thanks go to mama who raises me with a deep care and love and who always embeds in my mind the importance of education; my late 'papa', his patience, generosity, simplicity and hard work still amaze me till this day; my brothers and sisters for their supports both materially and immaterially.

My thanks go to all friends in the English Department especially the '96 students. Erlita, thanks for always being with me during the hard times while doing research at the eighth semester. I must not forget to say thanks to my wonderful circle of friends "Filan, Kris, Ika and the twin Mc Faddens" . Filan, I couldn't think how to succeed my work and college without you around. You were a lot helpful when coming to the dilemma between my job and thesis. Your suggestions of how to make priority between the two and your willingness of always being in touch creates an accelerated contact even to inaccessible people should be in intense connection with me. Kris, thanks for all your time offerings spent for me. Ika and Mc Faddens, a lot of funny times shared with you during college raise my spirit up to back campus to finalize one left responsibility.

Finally I would like to thank all people in 'Arthur Andersen Business Consulting' Jakarta Office, the partner, the manager, the 'ABC' and

'Datawarehousing' team for letting me learn to build up my career. There are many lessons and skills I learnt there which I do not get in schools and campus.

I confess honestly that this work is far from perfect and therefore, all constructive criticisms on this thesis would be appreciated.
