ACKNOWLEDGEMENT

Alhamdulillah are the best words to express my thanks to God. It was a hard time for me during finishing this thesis and no one can give me the power to do it but only Allah.

Thanks to Mrs. Sumarto D, as my adviser in writing my thesis, she is very patient and friendly to solve my thesis problems, thanks to all my lecturers, from them I can increase my knowledge, especially to Mrs. Christinawati who is very generous and friendly to give me her advice and lend me some books, and also to Mr. A. Rahman and Mr. Sumitro who give me some corrections so I realize that my thesis is very far from being perfected.

Then for all unforgettable persons who always be in my surroundings with their care and love: my parents, my grandma, and my brothers and sisters, thank you very much.

The last is my thanks to my best friend, Mas De, who invites me into the race of reaching the success, and also to my generous friend, Dik Antin, who lends me her tool for writing as long as I want and need.

However as I mentioned above that I realize this thesis is still far from being perfected, so suggestions and criticisms of readers are still needed.
