ACKNOWLEDGMENT

In the name of Allah and always praise be to him, this thesis, eventually, can be finished in order to fulfil the partial requirement in finishing the study in English Department of Faculty of Social and Political Sciences in Airlangga University.

This thesis which is an attempt to describe how negation is expressed in Arabic using /harfu an-nafyi/ and /harfu an-nahyi/ is not free from all shortcomings due to the limited knowledge and experience of the writer. Anyhow, the writer still hope that this thesis will be some use, especially for any research being carried out for the development of the Arabic. She also gratefully accepts any improvements and comments for the sake of this thesis.

The writer would like to thank a number of people who helped immensely in finishing this thesis. Her first and greatest debt is to drs. Husein Shahab who has guided and provided a host of valuable suggestions during the period of this thesis' preparation. The writer would also like to express her gratitude to drs. Amir Fatah and dra. Ita Farida M.Hum for their guidance and lectures in academic matters. Next, in terms of Arabic, a measure of thank is due to Ustadz Hasyim Ismu'iy al-Kunyari who has

played important role at every stage of Arabic analysis through his meaningful information and his valuable works. Another great debt is owed to Prawiyantini who provided crucial assistance in the preparation of the text. The writer is also indebted to Mrs. Masitha A.S., Josita Mayadawi S. and Chalimatus Sa'diyah for the kindness of lending her the books. Besides, she pays tribute to her friends in "Nurul Islam" dormitory and to Mrs. Yulia Shalihatun for their prayer and encouragement.

Eventually, may Allah^{SWT} bless some people who love her and always pray for her success. Among these she should particularly mention Mr. Abdul Chamid (father), Mrs. Channah (mother), Mr. Ainur Rafiq, Mr. Moh. Fauzi, and Abdul Mujib (brothers), Mrs. Shofiyah, Mrs. Rosyidah, Mrs. Hadiyah, and Mrs. Umi Hanik (sisters).
