The writer thanks God for all of His blessings which give him strenght to finish this thesis well. He couldn't have done anything without His helps. The object of this thesis is adjective intensifier morphemes in Javanese language of 'Suroboyoan' dialect. This thesis is very significant for the writer because it is partial fulfillment of the requirements for Sarjana degree. And, it also may give a worthwhile contribution for linguistic writings concerning linguistic aspects of 'Suroboyoan' dialect.

Problems during the preparation of this thesis mostly came from the lack of references. The writer comes across with the fact that scientific writings concerning linguistic aspects of contemporer 'Suroboyoan' dialect are quite rare. The available references are rather old-fashioned.

Through several revisions and additions, he succeeded in completing this thesis. He hell bent for leather and work hard so as to finish it satisfactorily. Nevertheless, as a proverb says that 'nothing is perfect', this thesis is also far from perfectness. Any weaknesses or lackness of this thesis are awaiting for suggestions and critiques.

The precious helps and assistances from his thesis advisor, Dra. Ismari are invaluable and impossible to be paid back. He owe her a great deal of gratitude for she kept encouraging me to complete his work as soon as possible. He is also grateful to all his friends who helped him preparing this thesis up to completion. May The Mighty God bless them all.

The writer really hopes this thesis can give a worthwhile contribution for science as well as enrich our knowledge for the sake of establishment of Indonesian manpower.
