ACKNOWLEDGEMENTS

First of all, I would like to thank Allah, for without His graceful benevolence, this thesis would never be accomplished. In the making of this thesis, I have been helped by many parties whom I can never thank enough.

Firstly is Mr Husein Shahab, who has been helpful, patient and careful in guiding this work from the beginning up to the end.

I would like to express my deep gratitude to my friends, Devi and Khotim for their clear detail information about psychology field, and Lilik Handayani for accompanying me in finishing my thesis.

My sincerity goes to Mr. Zainun Nasich (Head Coordinator of Quran in SD Integral Al Luqmanul Hakim). He has helped me a lot in finding the idea for the teaching method in this study, making the training books, and giving me spirit all the time. I am really grateful to Ms Sri Rejeki, Ms Afī, and all instructors in TPA Baitur Ridlwan, for their hospitality in TK Islam Rachmatullah and TPA Baitur Ridlwan. They all were very kind and cooperative. Teaching in those two places was a very nice experience.

And finally, I will never forget the happiness of having a sweet family. My mother, father and sisters are Allah's mercy in my life. I wish to say 'thank you' to my sister Herse who has donated some money. I wish to express my deepest gratitude to my mother and father who have given me so much attention and sacrificed anything for my study. I would never be able to pay back all of their everlasting loves.
