2. She demands to know who was responsible for the noise in class yesterday.

3. He avoided telling you the truth because he knew you would be very angry.
4. He doesn't know why you hurt his feeling by telling everyone his secret.
5. Your father hopes you are able to finish your study and get your degree before he is retired.
6. If you do not come in five minutes, we are afraid the train will leave.
7. It is unfortunate that you can't take this subject with us this semester.
8. The fact that he didn't help us to figure out our problem made me very upset.
9. My sister needs to know when she can take you to the exhibition.
10. You are always unsatisfied whereas in fact you have had a good job and a happy family.

The messages transformed inaccurately by operators of Metrotel are as follows:

1. He trive to show me that he is smarter than I am.
2. She wants you to pick her up at the airport when she arrived home.
3. Yesterday, I went to the bank to have your check cash.
4. I was glad when your sister arriev earlier than expected.
5. They always they have themself as if they were a group of high-class and well-educated people
6. I regret to tell you that you felt in this test.
7. Why don't you postphone leaving until your parents come home?
8. If we here any news about the accident, she want to be inform about it immediately.
9. If the weather had in nice yesterday, I would have gone to your house.
10. It's too bad you are not here since the party is so interesting and delightfull.
11. As long as you do the reset well, folow this instructur, and submit the report on time, he will be satisfid.
12. I am afraid that nobody agrees with your idea of intervierent in his business.
13. Better it is true or not, the guy who send you a letter last week is your pick enemy.
14. It is extremelly rude to see you always have everyone do your works.
15. What we did and where we when is none of your business.
16. It won't be necessary to tell you that news since you have already hurt from her directly.
17. We promise to take you everywhere you won't if you do visit us.
18. Although you may not agree, I must tell your paretns with whom you when last night.
19. Your book I was reading yesterday was so interesting but I read at twice in one day.
20. Her father proud her that she cold continue her study the university on condition that she got good marks.

3.4. Multipage

The complex-sentence English messages that were transformed precisely by operators of Multipage are as follows:

1. Don't you know that he wants to recognize you further?
2. I was glad when your sister arrived earlier than expected.
3. She demands to know who was responsible for the noise in class yesterday.
4. He doesn't know why you hurt his feeling by telling everyone his secret.
5. What we did and where we went is none of your business.
6. Your book I was reading yesterday was so interesting that I read it twice in one day.

The following are messages transformed imprecisely by operators of this station:

1. He try to show me that he is sarter than I am.
2. She wants you to pick her up as the airport wen she arrive home.
3. Yesterday, I went to the bank to have your check cash.

4. They always bihave themselves as if the her a group of high-cla and well-educated peple.
5. I regret to tell you that you fell in this test.
6. Why don't you push phone leaving until your parents comfrom?
7. She avoided telling the truth because knew you be very angry.
8. Hear any news about the accident, she want to be iniormed about it immediately.
9. The weather had been nice yesterday, I would to your house.
10. It's too bad you are not here since the party so interesting and.
11. As long as you the research well, follow his instruction, and submit the report on time, he will be satisfied.
12. I am afraid that nobody agree with your idea of interferen in his business.
13. Your father hope you are able to finish your study and get your degree before he is retired.
14. Whether it is true or not, the guy whos send you a letter last week is your big enemy.
15. It is extremely rude to see you always have everyone do your work.
16. If you do not come in five minutes, we are afraid the train will.
17. It is unortunate that you can't take this subject with us this semester.
18. The fax that he didn't help us to figure out our problem made me very upsat.
19. My sister need to know when she can take you to the exhibition.
20. It won't be necessary to tell you that news since you have already hurt from her directly.
21. We promise to take you everywhere you want if you do visite us.
22. Although you may not agree, I must tell your parent with whom you went last night.
23. You are always unsetisfaid whereas in fac you have had a good job and a happy family.
24. Her father wrote her that se could continue study to the university on condition that she got good max.

3.5 Nusapage

The complex-sentence English messages transformed correctly by Nusapage's operators are as follows:

1. He tries to show me that he is smarter than I am.
2. As long as you do the research well, follow his instruction, and submit the report on time, he will be satisfied.
3. Your father hopes you are able to finish your study and get your degree before he is retired.
4. The fact that he didn't help us to figure out our problem made me very upset.
5. We promise to take you everywhere you want if you do visit us.
6. Your book I was reading yesterday was so interesting that I read it twice in one day.
7. Her father wrote her that she could continue her study to the university on condition that she got good marks.

The remaining English messages are the ones transformed incorrectly by this station's operators:

1. She want you to pick her up at the airport when she arrive home.
2. Yesterday, I went to the bank to have your check cash.
3. Don't you know that she wants to recognize you further?
4. I was glad when your sister arrive earlier then expected.
5. They always be have themselves as if they were a group of high-class and well-educatid people.

6. I regret to tell you that you fill in this test.
7. Si demands to know who was responsible for the noice in class yesterday.
8. Why don't you post pone leaving until your parents come home?
9. He avoid it telling you the truth because he knew you would be very angry.
10. If we hear any news about the accident, she wants to be inform about it immediately.
11. If the weather have been nice yesterday, I would have gone to your house.
12. It's to bad you are not here since the party is so interesting and delightfuul.
13. Shedoesn't know why you hurt her feeling by telling everyone her secret.
14. I am afraid that nobody a great with your idea of interference in his business.
15. Wheather is this true or not, the guy who send you a letter last week is your big enemy.
16. It is extremely road to see you always have every one do your work.
17. If you don't come in 5 minutes, we are affraid the train will live.
18. It is unfortuned that you can't take this subject with us this semester.
19. My sister need to know when she can take you to the exhibition.
20. What we did & where we went is not of your business?.
21. If won't be necessary to tell you that news since you have already not from her directly.
22. All do you may not agree, I must tell your parent with whom you went last night.
23. You are always unsatisfied whereas infact you have had a good job and a happy family.

3.6 Personal

The complex-sentence English messages transformed accurately by operators of Personal are as follows:

1. She wants you to pick her up at the airport when she arrives home.
2. Yesterday, I went to the bank to have your check cashed.
3. He doesn't know why you hurt this feeling by telling everyone his secret.
4. It won't be necessary to tell you that news since you have already heard from her directly.
5. We promise to take you everywhere you want if you do visit us.

The remaining sentences below are messages transformed inaccurately by Personal's operators:

1. He tries to show me that he is smaster than I am.
2. You know the he want to reketnice you fur tile?
3. I was glad when your sister right earlier than expected.
4. They always behave themselv of it they were a group of high-class and will-educated people.
5. I regrad to tell you that you falled in this test.
6. She dimond to know who was responsible for the noise in class yesterday.
7. Why don't you postphone leaving until your parent come home?
8. He avoided telling your the truth because he knew you would be very angry.
9. If we here any news about the accident, she want to be inform about it imediately.
10. If the water have been nice yesterday, I would has gone to your house.
11. It too bad you are not here seen the party is so interesting and delightfull.
12. As long as you do the reased will, forrow his interaction, in submit the report on time, he will satisfied.
13. I afraid that nobody agree with your idea of interference in his bisnis.

14. Your father hope you are able to finish your study and get your degree before he is retired.
15. However it is true or not, the guy who send your later last week is your big enemy.
16. It is astreamelly rode to see you all have everyone do your work.
17. If you do not come in five minute, we are afraid the train we leave.
18. It is an for unit that you can't take this subject with us this semester.
19. The fact that he did'nt help us to figure out our problem mid me very absent.
20. My sister need to know when she can take you to the exibition.
21. What we did and where we when is none of your bussines.
22. Although you my not agree, I must tell your parent with home you went last night.
23. You are always ansatisfied where in fax you have get a good job and happy family.
24. Your book I was reading yesterday was so interesting that I read it two in one day.
25. Her father road here that she could continue her study to the university on condition that she got good marks.

3.7 Skytel

The complex-sentence English messages transformed correctly by radio-paging operators of Skytel are as follows:

1. He tries to show me that he is smarter than I am.
2. Don't you know that he wants to recognize you further?
3. They always behave themselves as if they were a group of high-class and well-educated people.
4. If the weather had been nice yesterday, I would have gone to your house.
5. It's too bad you are not here since the party is so interesting and delightful.
6. He doesn't know why you hurt his feeling by telling everyone his secret.
7. The fact that he didn't help us to figure out our problem made me very upset.
8. My sister needs to know when she can take you to the exhibition.
9. It won't be necessary to tell you that news since you have already heard from her directly.
10. We promise to take you everywhere you want if you do visit us.
11. Although you may not agree, I must tell your parents with whom you went last night.
12. You are always unsatisfied whereas in fact you have had a good job and a happy family.
13. Your book I was reading yesterday was so interesting that I read it twice in one day.

The following are the ones transformed incorrectly by Skytel's operators:

1. She want you to pick her up at the airport when she arrive home.
2. Yesterday, I went to the bank to have your check cash.
3. I was glad when your sister arrive earlier than expected.
4. I regret to tell you that you false in this test.
5. See demands to know who was responsible for the noise in class yesterday.
6. Why you don't postpone leaving until your parent come home?
7. He is telling you the truth because he new you would be very angry.
8. If we hear any news about the accident, she want to be informed about it immediately.
9. As long as you do there is such well, follow his instruction, and submit the report on time, he will be satisfied.
10. I am afraid that nobody agree with your idea of interserence in his business.
11. Your father hope you are able to finish your study and get your degree before he is tired.

12. Weather it is true or not, the guy who sent you letter last week is your big enemy.
13. It is extremely ruth to see you always have everyone do your work.
14. If you do not come in five minute, we are afraid the train will leave.
15. It is unfortunate that you can't take the subject with us this matter.
16. What we did and where we went is not your business.
17. Her father wrote her that she could continue her study to the university on condition that she got good mark.

3.8 Starco

The following are complex-sentence English messages transformed accurately by Starco's operators:

1. He tries to show me that he is smarter than I am.
2. She wants you to pick her up at the airport when she arrives home.
3. Yesterday, I went to the bank to have your cheque cashed.
4. Don't you know that he wants to recognize you further?
5. They always behave themselves as if they were a group of high-class and well-educated people.
6. I regret to tell you that you failed in this test.
7. She demands to know who was responsible for the noise in class yesterday.
8. Why don't you postpone leaving until your parents come home?
9. If we hear any news about the accident, she wants to be informed about it immediately.
10. If the weather had been nice yesterday, I would have gone to your house.
11. It's too bad you are not here since the party is so interesting and delightful.
12. As long as you do the research well, follow his instruction, and submit the report on time, he will be satisfied.
13. He doesn't know why you hurt his feeling by telling everyone his secret.
14. I am afraid that nobody agrees with your idea of interference in his business.
15. Whether it is true or not, the guy who sent you a letter last week is your big enemy.
16. It is unfortunate that you can't take this subject with us this semester.
17. My sister needs to know when she can take you to the exhibition.
18. It won't be necessary to tell you that news since you have already heard from her directly.
19. We promise to take you everywhere you want if you do visit us.
20. You are always unsatisfied whereas in fact you have had a good job and a happy family.
21. Your book I was reading yesterday was so interesting that I read it twice in one day.

The remaining sentences below are messages that were transformed inaccurately by operators of this station:

1. I was glad when your sister arrive earlier than expected.
2. He avoided telling you the truth because he knew you will be very angry.
3. Your father hope you are able to finished your study and get your degree before he is retire.
4. It is extremely rude to you always have everyone to works.
5. If you do not come in five minutes, we are afraid the train we leave.
6. The fact that he didn't help us to figure out our problem make me very upset.
7. What we date and where we when it's none of your business.
8. Although you may not agree, I must tell your parent with whom you went last night.

9. Her father wrote her that she could continue her study to the university on condition that she got good mark.

3.9 Starpage & Indolink

The complex-sentence English messages transformed precisely by operators of Starpage and Indolink are as follows:

1. Why don't you postpone leaving until your parents come home?
2. If the weather had been nice yesterday, I would have gone to your house.
3. We promise to take you everywhere you want if you do visit us.
4. Your book I was reading yesterday was so interesting that I read it twice in one day.

The following are messages transformed imprecisely by operators of this station:

1. He trys to show me that he is smater than I am.
2. She want you to pick her up at the airport when she arrive home.
3. Yesterday, I went to the bank to have your check cash.
4. Don't you know that he want to recognize you further?
5. I was glad when your sister arrive earlier than expected.
6. They always behave themselves as if they were group of high-class and well-educated people.
7. I regret to tell you that you felt in this test.
8. She demand to know who was responsible for the noise in class yesterday.
9. He avoid it telling you the truth because he new you would be very angry.
10. If we hear any news about the accident, she want to be inform about it immediately.
11. It's too bad you are not here seen the party is so interesting and delightfull.
12. As long as you do the reset well, follow his instruction, and submit the report on time, he will be setisfaid.
13. He doesn't know why you heart his feeling by telling everyone his secret.
14. I am afraid that nobody agree with your idea of interferent in his business.
15. Your father hope you are able to finish your study and get your degree before he is tired.
16. Whether it is true or not, the guy who send you a letter last week is your big enemy.
17. It is extremely root to you always have everyone do your work.
18. If you do not come in five minute, we are afraid the train will lift.
19. It is anfortunet that you can't take this subject with us this semester.
20. The fax that he didn't help us to figur out our problem made me very upset.
21. My sister need to know when see can take you to the exibition.
22. What we did and were we when is none of your business.
23. It won't be necessary to tell you that news since you have already hurt from her directly.
24. Although you may not agree, I must tell your parent with whom you when last night.
25. You are always ansatisfaid where us in fact you have had a good job and a happy family.
26. Her father root her that she could continue her study to the university on condition that she got good mark.

APPENDIX IV**Quantitative Analysis****1. Quantitative analysis of the behavior of radio-paging operators toward simple-sentence messages**

Four data related with this category are precise-transformed simple-sentence Indonesian messages, imprecise-transformed simple-sentence Indonesian messages, precise-transformed simple-sentence English messages, and imprecise-transformed simple-sentence English messages. The formulae of calculating the mean value of each datum concerning this category is:

$$\bar{x} = \frac{X_1 + X_2 + X_3 + \dots + X_n}{n}$$

in which X_n = the number owned by each radio-paging station concerning a certain datum

n = the total number of radio-paging stations

By using the formulae above, the calculation of the mean value of each datum are as follows:

1. The mean value of precise-transformed simple-sentence Indonesian messages:

$$\begin{aligned}\bar{x} &= \frac{29+29+29+29+29+29+29+29+29}{9} \\ &= 29\end{aligned}$$

2. The mean value of imprecise-transformed simple-sentence Indonesian messages:

$$\begin{aligned}\bar{x} &= \frac{1+1+1+1+1+1+1+1+1}{9} \\ &= 1\end{aligned}$$

3. The mean value of precise-transformed simple-sentence English messages:

$$\begin{aligned}\bar{x} &= \frac{10+4+12+9+16+3+19+19+9}{9} \\ &= 11.22\end{aligned}$$

4. The mean value of imprecise-transformed simple-sentence English messages:

$$\begin{aligned}\bar{x} &= \frac{20+26+18+21+14+27+11+11+21}{9} \\ &= 18.78\end{aligned}$$

Putting these values into a table, we can get:

Table a. The transformed simple-sentence messages

	Precise	Imprecise	Total
Indonesian messages	29	1	30
English messages	11.22	18.78	30
Total	40.22	19.78	60

In which:

- ◆ The number of simple-sentence messages (symbol: n)= 60
- ◆ The number of simple-sentence Indonesian messages (symbol: n1.)= 30
- ◆ The number of simple-sentence English messages (symbol: n2.)= 30
- ◆ The number of precise-transformed simple-sentence messages (symbol: n.1)= 40.22
- ◆ The number of imprecise-transformed simple-sentence messages (symbol: n.2)= 19.78
- ◆ The number of precise-transformed simple-sentence Indonesian messages (symbol: X11)= 29
- ◆ The number of imprecise-transformed simple-sentence Indonesian messages (symbol: X12)= 1
- ◆ The number of precise-transformed simple-sentence English messages (symbol: X21)= 11.22
- ◆ The number of imprecise-transformed simple-sentence English messages (symbol: X22)= 18.78

The expected value of each datum of this category is calculated by using this formula:

$$E(i,j) = \frac{n_i \times n_j}{n}$$

From the values above, the result of computation of the expected values is as follows:

1. $E_{11} = \frac{30 \times 40.22}{60} = 20.11$
2. $E_{12} = \frac{30 \times 19.78}{60} = 9.89$
3. $E_{21} = \frac{30 \times 40.22}{60} = 20.11$
4. $E_{22} = \frac{30 \times 19.78}{60} = 9.89$

Then, the Chi Square value of this analysis is calculated by using the formula:

$$\chi^2 = \sum \frac{[X(i,j) - E(i,j)]^2}{E(i,j)}$$

From the data, the Chi Square value is as follows:

$$\begin{aligned} \chi^2 &= \frac{(29-20.11)^2}{20.11} + \frac{(1-9.89)^2}{9.89} + \frac{(11.22-20.11)^2}{20.11} + \frac{(18.78-9.89)^2}{9.89} \\ &= 23.84 \end{aligned}$$

Since 95% is taken as the confidence level, it means that the $\alpha = 100\% - 95\% = 5\%$. The value of χ^2 for $\alpha = 5\%$ based on the Chi Square distribution table is 3.84 and the diagram is:

Figure a. The Chi Square diagram of simple-sentence messages

Because 23.84 is out the curve (the χ^2 value of the analysis is bigger than the χ^2 value from the table), then H_0 is rejected. It means that the convergent behavior of radio-paging operators toward the simple-sentence Indonesian messages is not the same as that one toward the English ones. In other words, we may say that the difference is significant.

2. Quantitative analysis of the behavior of radio-paging operators towards compound-sentence messages

Four data related with this category are precise-transformed compound-sentence Indonesian messages, imprecise-transformed compound-sentence Indonesian messages, precise-transformed compound-sentence English messages, and imprecise-transformed compound-sentence English messages. By using the same formula above, the calculation of the mean value of each datum are as follows:

1. The mean value of precise-transformed compound-sentence Indonesian messages:

$$\bar{x} = \frac{29+29+29+29+29+29+29+29+30+29}{9}$$

$$= 29.11$$

2. The mean value of imprecise-transformed compound-sentence Indonesian messages:

$$\bar{x} = \frac{1+1+1+1+1+1+1+0+1}{9}$$

$$= 0.89$$

3. The mean value of precise-transformed compound-sentence English messages:

$$\bar{x} = \frac{14+7+14+8+10+11+13+20+10}{9}$$

$$= 11.89$$

4. The mean value of imprecise-transformed compound-sentence English messages:

$$\bar{x} = \frac{16+23+16+22+20+19+17+10+20}{9}$$

$$= 18.11$$

Putting these values into a table, we can get:

Table b. The transformed compound-sentence messages

	Precise	Imprecise	Total
Indonesian messages	29.11	0.89	30
English messages	11.89	18.11	30
Total	41	19	60

In which:

- ◆ The number of compound-sentence messages (symbol: n)= 60
- ◆ The number of compound-sentence Indonesian messages (symbol: n_1)= 30
- ◆ The number of compound-sentence English messages (symbol: n_2)= 30
- ◆ The number of precise-transformed compound-sentence messages (symbol: $n.1$)= 41

- ◆ The number of imprecise-transformed compound-sentence messages (symbol: n_2)= 19
- ◆ The number of precise-transformed compound-sentence Indonesian messages (symbol: X_{11})= 29.11
- ◆ The number of imprecise-transformed compound-sentence Indonesian messages (symbol: X_{12})= 0.89
- ◆ The number of precise-transformed compound-sentence English messages (symbol: X_{21})= 11.89
- ◆ The number of imprecise-transformed compound-sentence English messages (symbol: X_{22})= 18.11

By using the same formula of calculating the expected values, the result is as follows:

1. $E_{11} = \frac{30 \times 41}{60} = 20.5$
2. $E_{12} = \frac{30 \times 19}{60} = 9.5$
3. $E_{21} = \frac{30 \times 41}{60} = 20.5$
4. $E_{22} = \frac{30 \times 19}{60} = 9.5$

Then, the Chi Square value of this analysis by using the same formula is as follows:

$$\chi^2 = \frac{(29.11-20.5)^2}{20.5} + \frac{(0.89-9.5)^2}{9.5} + \frac{(11.89-20.5)^2}{20.5} + \frac{(18.11-9.5)^2}{9.5}$$

$$= 22.84$$

The diagram is:

Figure b. The Chi Square diagram of compound-sentence messages

Because 22.84 is out the curve (the χ^2 value of the analysis is bigger than the χ^2 value from the table), then H_0 is rejected. It means that the convergent behavior of radio-paging operators toward the compound-sentence Indonesian messages is not the same as that one toward the English ones for the difference is significant.

3. Quantitative analysis of the behavior of radio-paging operators toward complex-sentence messages

Four data concerning this category are precise-transformed complex-sentence Indonesian messages, imprecise-transformed complex-sentence Indonesian messages, precise-transformed complex-sentence English messages, and imprecise-transformed complex-sentence English messages. By using the same formulae above, the calculation of the mean value of each datum are as follows:

1. The mean value of precise-transformed complex-sentence Indonesian messages:

$$\bar{x} = \frac{30+30+30+30+30+30+30+30+30}{9}$$

$$= 30$$

2. The mean value of imprecise-transformed complex-sentence Indonesian messages:

$$\bar{x} = \frac{0+0+0+0+0+0+0+0+0}{9}$$

$$= 0$$

3. The mean value of precise-transformed complex-sentence English messages:

$$\bar{x} = \frac{12+2+10+6+7+5+13+21+4}{9}$$

$$= 8.89$$

4. The mean value of imprecise-transformed complex-sentence English messages:

$$\bar{x} = \frac{18+28+20+24+23+25+17+9+26}{9}$$

$$= 21.11$$

Putting these values into a table, we can get:

Table c. The transformed complex-sentence messages

	Precise	Imprecise	Total
Indonesian messages	30	0	30
English messages	8.89	21.11	30
Total	38.89	21.11	60

In which:

- ◆ The number of complex-sentence messages (symbol: n)= 60
- ◆ The number of complex-sentence Indonesian messages (symbol: n1.)= 30
- ◆ The number of complex-sentence English messages (symbol: n2.)= 30
- ◆ The number of precise-transformed complex-sentence messages (symbol: n.1)= 38.89
- ◆ The number of imprecise-transformed complex-sentence messages (symbol: n.2)= 21.11
- ◆ The number of precise-transformed complex-sentence Indonesian messages (symbol: X1 1)= 30
- ◆ The number of imprecise-transformed complex-sentence Indonesian messages (symbol: X12)= 0
- ◆ The number of precise-transformed complex-sentence English messages (symbol: X21)= 8.89
- ◆ The number of imprecise-transformed complex-sentence English messages (symbol: X22)= 21.11

By using the same formula of calculating the expected values, the result is as follows:

$$1. E11 = \frac{30 \times 38.89}{60} = 19.45$$

$$2. E_{12} = \frac{30 \times 21.11}{60} = 10.55$$

$$3. E_{21} = \frac{30 \times 38.89}{60} = 19.45$$

$$4. E_{22} = \frac{30 \times 21.11}{60} = 10.55$$

Then, by using the same formula, the Chi Square value of this analysis is as follows:

$$\chi^2 = \frac{(30-19.45)^2}{19.45} + \frac{(0-10.55)^2}{10.55} + \frac{(8.89-19.45)^2}{19.45} + \frac{(21.11-10.55)^2}{10.55}$$

$$= 32.57$$

The diagram is:

Figure c. The Chi Square diagram of complex-sentence messages

Because 32.57 is out the curve (the χ^2 value of the analysis is bigger than the χ^2 value from the table), then H_0 is rejected. It means that the convergent behavior of radio-paging operators toward the complex-sentence Indonesian messages is not the same as that one toward the English ones due to the significant difference.
