ACKNOWLEDGEMENT

In the name of Allah, The Most Gracious, Most Merciful.

First of all, praise be to Allah Subhanahu Wa Ta'ala, who gives me strength and spirit to finish this thesis. And pray, salam and sholawat are for his greatest prophet Rasullulah Mohammed Saw.

During the time of writing, I have been generously helped by number of persons. The largest debt is to Dra. Sumarto D. M.Ed., my thesis Advisor, who has given me excellent guidance and considerable support for finishing the thesis. She is always pointing out the weakness wisely and recommending improvement. Acknowledgment also goes to all lectures in English Department of Airlangga University who have given me encouragement and their kindness in guiding me throughout my study.

I am most grateful to Bapak and Ibu for their endless love, their pray, their sacrifice morally and materially, their support and trust until I finish my thesis. Thanks a lot goes to my brothers -- Mas Waras, Mas Fud and my little brother Seno for their advice, protection and jokes-- and my sisters Lia and Yani for their love. And special thanks for Mas Wawan for his kindness of lending me the computer which is very helpful when I am working on my thesis and also for his tender affection.

And thanks also go to all my friends at English department for their kindness and friendship during the time I study at Airlangga University, especially to

Khusnul, Esti, Dian, Diah, etc and finally to Kikieq for his bright and funny ideas that can make me laugh so hard and forget the problem for a moment.

Finally I realize that this thesis is far from being perfect. Therefore, I expect and appreciate the constructive criticism and suggestion to improve and complete this thesis.
