## **ACKNOWLEDGEMENT**

**Working on this thesis surely invests much of my energies, times, and focus. The fear of not accomplishing this thesis comes across my mind many times. However, I am fully aware that my journey of learning would not be enriched as if I failed at doing so. To me, a thesis is more than merely the requirement to graduate. It opens up the doors of opportunities outside the university building which I still need to explore deeper and go chase after them.**

**Many supporting people are there backing me up during the writing process of this thesis. Hereby, I would like to gratefully honour those people. First of all, it goes to my favourite lecturer, Maimunah M. Hum, M.A. Thank you for enlightening me to choose queer analysis. Also, thank to my humorous thesis advisor, Lastiko Endi Rahmanty, S.S., M. Hum for patiently answering all the questions I do not understand.**

**Then, thank to Puguh Budi Susetiyono and Arum Budiastuti, my thesis examiners, for giving me insights to improve my work. Most importantly, to my dad, Yulius, it is all for you. A thank-you is never enough, dad. I am forever in debt for your enormous love to me. Finally, last but not least, for my mom and other family members as well as for my greatest laughter: Amanda, Sheila, Tya, Evie, and Didi. You are all amazing.**
