ACKNOWLEDGEMENTS

Alhamdulillah rabbil 'aalamiin...

First of all, I would like to thank Allah SWT for all the strength that You have been given to me. I would not be able to finish this thesis without Your greatness of giving me the chance to do and providing me with so much unpredictable helps during the process.

Secondly, to my thesis advisor, Dra. Christinawati, thank you for guiding me to write this thesis. Her poetry classes have given great contribution and enabled me to present a thesis on poetry. She supports me patiently with noteworthy advices and concerns since the beginning of the writing, in spite of her busy time as a lecturer.

To my family, who have supported me with so much love, prayers and understanding. My father and mother, I am so grateful of having special parents like you; Eko, Anton and Anda for always supporting me in a distance. My beloved sister, Lissa, who supports and accompanies me to pass the hard times. The little troublemakers Izul and Ian, and also Alya, the youngest member of the family, it has been so nice to see you smiling and playing with me.

I wish to thank Rakhmat Irfan for being a wonderful mate, giving me the greatest support and strength during my working on this thesis. To the family of dr. Pangestu Adi and Mrs. Ade Pangestu as well as the other member of the family (Ai, A'at, Dani and Icha), thank you for your kindness to let me use one of the boys' computers.

To the girls who used to spend our time together: Nonik, Vita and Uuk, for providing me the precious moments during this time. Thank you for my old classmate, Henry, for always reminding me of the deadline. At last, would like to thank class of '98 for the friendship before, during and after the process of working on this thesis.
