

ABSTRACT

Implementation of the policy is one of the crucial processes in public policy. The policy involves many actors in it have the possibility to experience difficulties in the process of its implementation, this is due to a conflict of interest occurs between actors in the policy are therefore in this study researchers took themes factor affecting policy implementation Perda Kawasan Tanpa Smoking (KTR) and Limited smoking (KTM). The purpose of this study is to describe what factors factor affecting policy implementation Perda No. 5 of 2008 in the Dr. Soewandhie Surabaya hospital, in that it is the policy of KTR and KTM in the city of Surabaya. Exploratory qualitative research methods used in this study and the location of the research is the. Dr. Soewandhie Surabaya hospital as the locus of implementing perda KTR and KTM with health services as the main Coordinator, Satpol PP Surabaya As Trustees Perda implementation.

The analysis of the data found in the study used research formula to answer by using the theory of factor analysis of affecting the implementation of the policies of Charles Edwards III are those factors is communication, sources, trend-kecenderunga or bureaucratic structures and behaviour. The resulting data analysis results show that implementation of the policy of KTR and KTM in the Dr. Soewandhie hospital has not been going well for in influence by factors of communication, resources, bureaucratic structure and disposition of the implementation. Besides about factor- of factors affect implementation KTR policy and the ministerial meeting, the research other is on the implementation of policies perda ktr and ministerial conference which until now not maximum due to the actor factor interests involved, the availability of resources being deficient; society discipline and consistency of implementer policy.
