

ABSTRACT

The system criminal liability in criminal law follows the principle of positive current error as one of the principles in addition to the principle of legality. The system of criminal responsibility in national criminal law which will come to apply the principle of no punishment without errors is one of the fundamental principles that need to be defined explicitly as a couple legality principle two principles are not deemed rigid requirements and are absolut. Therefore, it gives the possibility iun certain cases to apply the doctrine of vicarious liability. The doctrine of vicarious liability was not regulated in the Criminal Code (WVs). Viewed from the angle comparison anothe state Criminal Code, the principle of fault or culpabilitas principle is generally recognized as a general principle. The formulation of the principle is usually seen in the formulation of the criminal responsibility, particularly with regard to issues of intent and negligence of parents in facilitating vehicle to their childrenwho are still minors. According to criminal code of parents are not responsible for errors committed by their children while under Civil Law (BW) it is possible that parents may be held accountable for acts commiited by his son, known as vicarious liability is the person responsible for the actions of others, which has been adopted by possitive law. So that the country of America and Netherlands possible responsibility for the mistakes their parents who commit traffic violations that lead to accidents.
