ABSTRAK

Sampah rumah sakit mulai disadari sebagai bahan buangan yang dapat menimbulkan gangguan kesehatan lingkungan karena berbagai bahan yang terkandung di dalamnya dapat menimbulkan dampak kesehatan dan menimbulkan cidera bagi para petugas, pengunjung rumah sakit maupun masyarakat luas.

Penelitian ini merupakan penelitian evaluatif dengan membandingkan pengelolaan sampah medis rumah sakit Islam Jemursari Surabaya dengan Kepmenkes RI No 1204/MENKES/SK/X/2004 Tentang Persyaratan Kesehatan Lingkungan Rumah Sakit.

Hasil penelitian di rumah sakit Islam Jemursari Surabaya diperoleh bahwa sarana berupa kantong plastik sampah medis dan gerobak sampah masih belum sesuai dengan peraturan yang ada. Selain itu, petugas sampah medis tidak menggunakan alat pelindung diri berupa masker dan sarung tangan dikarenakan tidak ada alokasi dana untuk alat pelindung diri.

Penelitian ini dapat disimpulkan bahwa pengelolaan sampah medis di rumah sakit Islam Jemursari Surabaya belum sesuai dengan Kepmenkes RI No 1204/MENKES/SK/X/2004 Tentang Persyaratan Kesehatan Lingkungan Rumah Sakit yaitu pada kantong plastik sampah yang masih menggunakan kantong plastic warna merah saja, gerobak sampah yang digunakan dalam keadaan terbuka dan petugas sampah medis tidak menggunakan alat pelindung diri berupa masker dan sarung tangan.

Kata kunci : evaluasi, pengelolaan sampah medis, Rumah Sakit Islam Jemursari Surabaya.

ABSTRACT

The waste of the hospital began to be realised as the waste matter that could cause the disturbance of the health of the environment because of various materials that were contained inside to be able to cause the impact of the health and to cause the injury for the officials, the hospital visitor and the wider community.

This research was the evaluative research by comparing the medical waste management of the Islam hospital of Jemursari Surabaya with Kepmenkes RI No 1204/MENKES/SK/X/2004 about the Condition for the Health of the Hospital Environment.
