

## ABSTRACT

INI Notary Code of Ethics is a moral code that serve as guidelines in carrying out notary office. The scope of the Code applies to all INI Notary Association members and others who assume and execute the office of Notary, both in the implementation of the office or in daily life. Indonesian Notaries Association (INI) as to the Notaries Society Organisations have a very important role in enforcing the implementation of the Code of Notary INI, through the Honor Council has primary responsibility to direct and supervise the implementation of the Code Notary INI.

INI Notary Code of Ethics as a provision regulating behavior implement in performing their duties Notary, also regulates relations fellow Notary. In effect the Notary Code of Ethics is further elaboration of what is stipulated in the Law Notary.

In the preparation of this thesis, using the approach of legislation (Statute Approach), which is a normative approach to research that emphasizes the statutory provisions relating to the matter under investigation. The concept approach (conceptual Approach) which examines the concepts of the Code function in Fostering Moral INI Notary Indonesia. Legal materials are used, the primary legal materials that legislation and secondary legal material which form an opinion of legal scholars stated in the literature.

Of this paper can be explained that, coaching is conducted by the Organization of Notaries (Notary Association of Indonesia), through its Honorary Board is to execute the duties and office in accordance with the Act and the Code Notary Notary INI. And to it's members in performing their duties and positions have moral character and good personality. And encourage Notaries to always provide the best service to the public, especially users of Notary services.
