

ABSTRACT

Generally a job that requires a huge emotional capability is practically a job that is facing a huge mental pressure, either caused by the too big quantity of a job or by an interaction between the job and the intense environment, that includes the Satpol PP. The actualization function of Satpol PP in Madiun Regency is reflected in an oriented performance that is *Policy Adjustment* in many fields within the framework of the regional autonomy new paradigm, and the performance of all members of Satpol PP is directed and formulated to create an atmosphere that will push the optimum achievement of the role and function of Satpol PP; The population and sample of this research are all members of the Madiun Regency Satpol PP who are totalling to 39 members. The connection between the Emotional Quotient and Spiritual Quotient with the performance of the Satpol PP can be viewed in this following table The Output SPSS 1.60: *Model Fitting Information, Goodnes-of-Fit, Pseudo R-Square, Parameter Estimates, Test of Parallel Lines*. The outcome is, the better the Emotional Question and Spiritual Questions are the better the Performance of the Satpol PP and this is valid for all catagories. A good performance will surely make the image of Satpol PP in public better.

Keywords: Influence, Emotional Quotient, Spiritual Quotient, Performance, Image.
