

A B S T R A C

This research field on Constitutional and Administrative law especially on development of State company. The choice of this subject base on the issues that the political decision also influence by economic system. As we knew that on the last of 1960-th in Indonesia was build many of state factories (Perusahaan Negara). This foundation has the aim to protect the domestic economic system. Other reason that the state have opportunities to direction the economic system.

In the last of the 1969th, after orde baru replace orde lama to lead political system in Indonesia, the government date the new system in economic policies, one of their policy is to open the foreign countries to build factories in Indonesia. It is mean that Indonesia start to be free-market economic.

According to this new policy, the government date also legislation Nr. 9/1969 about Basic Legal of the BUMN restructures. By this legislation, Perusahaan Negara must be remark to three system, et al. :

1. Perusahaan Jawatan (Departmental Agency)
2. Perusahaan Umum (Public Corporation)
3. Perusahaan Perseroan (Public/State Company).

Base on the background research as discription on the above, so the research problem is :

1. what the government ruler be a basic of the remark of the Perusahaan Negara ?
2. what kind of new form as the result of the remark from Perusahaan Negara ?

By this problem, the result of this research can be formulated in five-th formulation, is :

1. The remark form Perusahaan Negara be Perusahaan Jawatan
2. The remark form Perusahaan Negara be Perusahaan Umum
3. The remark form Perusahaan Negara be Perusahaan Perseroan
4. The remark form Perusahaan Jawatan be Perusahaan Umum
5. The remark form Perusahaan Umum be Perusahaan Perseroan.

This research just the first step to study about BUMN, so it is need the new step to study deeply about BUMN. To completely this research, must be continew by new research in coming time. It especially to fine what the reason of the new form is choices.
