CHAPTER IV

CONCLUSION

The apprenticeship that I took in SMPN 1 Juanda gave me a lot of knowledge. As a Teacher I realized that every student have their own motivation in learning English, not every student enjoy in learning English and this could be a big problem for the teacher. So, the important thing is how to make all of the student be interested in learning English. Fortunately, SMPN 1 Juanda had a modern laboratory and I can use it to make the learning process enjoyable for the student. By using video CD, student are attracted to following the lesson and the learning process became more fun, so that, student could easily get the lesson.

In this case, I realized that the using of laboratory for supporting English learning is very helpful for both Teacher and student. The good enthusiasm of the student was really help me in doing apprenticeship as an English Teacher in SMPN 1 Juanda.
