JUDUL :

PENGARUH INFRASTRUKTUR TERHADAP *FOREIGN DIRECT INVESTMENT* : STUDI KASUS INDONESIA TAHUN 1981-2014

ISI :

Penelitian ini bertujuan untuk melihat pengaruh dari ketersediaan infrastruktur beserta dengan ukuran pasar (*market size*), dan nilai tukar terhadap arus masuk *foreign direct investment* (FDI) di Indonesia. Metode yang digunakan dalam penelitian adalah metode *Vector Error Correction Model* (VECM) dengan menggunakan data *time series* mulai tahun 1981-2014. Hasil estimasi jangka panjang dalam penelitian ini menunjukkan bahwa infrastruktur berpengaruh positif dan signifikan terhadap arus masuk *foreign direct investment* (FDI) di Indonesia. Ukuran pasar (*Market Size*) berpengaruh positif dan signifikan terhadap arus masuk *foreign direct investment* (FDI) di Indonesia. Nilai tukar/kurs berpengaruh negatif dan signifikan terhadap arus masuk *foreign direct investment* (FDI) di Indonesia.

Kata kunci : *Foreign Direct Investment* (FDI), Infrastruktur, Ukuran Pasar (*Market Size*), Nilai Tukar/Kurs, *Vector Error Correction Model* (VECM)

TITLE :

THE IMPACT OF INFRASTRUCTURE ON FOREIGN DIRECT INVESTMENT : THE CASE OF INDONESIA YEAR 1981-2014

CONTENT :

This study aims to look at the impact of infrastructure along with the size of the market, and the exchange rate on the inflow of foreign direct investment in Indonesia. Vector Error Correction Model (VECM) is used in this study with time series data starting from 1981-2014. The results show that in the long term in this study indicate that the infrastructure has positive and significant impact on the inflow of foreign direct investment in Indonesia. The size of the market has positive and significant impact on the inflow of foreign direct investment in Indonesia. Lastly, the exchange rate has negative and significant impact on the inflow of foreign direct investment in Indonesia.

Keywords : Foreign Direct Investment, Exchange Rate, Infrastructure, Market Size, Vector Error Correction Model (VECM)
