

ABSTRAK

Penelitian ini dibuat dengan tujuan untuk memberikan bukti empiris mengenai pengaruh mekanisme *good corporate governance* terhadap kinerja keuangan perusahaan. *Good corporate governance* dalam penelitian ini diukur dengan kepemilikan institusional, kepemilikan manajerial, jumlah komite audit dan presentase komisaris independen.

Kinerja perusahaan diprosikandengan *Economic Value Added*. Perusahaan pertambangan yang terdaftar di Bursa Efek Indonesia dipilih sebagai sampel penelitian. Metode *purposive sampling* digunakan untuk menyeleksi sampel yang telah ditentukan selama periode 2014-2016. Analisis data diproses dengan menggunakan regresi linier berganda. Pengujian yang telah dilaksanakan menyimpulkan bahwa kepemilikan manajerial dan kepemilikan institusional berpengaruh tidak signifikan terhadap kinerja perusahaan, dan komisaris independen serta komite audit berpengaruh positif signifikan terhadap kinerja perusahaan.

Kata kunci: *Good corporate governance*, kinerja perusahaan, *economic value added*

ABSTRACT

This research was made to give empirical evidence on the impact of good corporate governance mechanism on firm performance. Good corporate governance in this research is measured by managerial ownership, institutional ownership, independent commissioner percentage, and the amount of audit committee. Firm performance is proxied by economic value added. Mining companies listed in Indonesian Stock Exchange used as the research's sample. Purposive sampling method is used to select samples during 2014-2016 period. Data were analyzed using multiple regression. The result of analysis concluded that both managerial and institutional ownership have insignificant influence on firm performance, whereas independent commissioner and audit committee have positive and significant influence on firm performance.

Keywords: *good corporate governance, firm performance, economic value added.*
